

<b>Fall 2013</b>	
<b>September</b>	
<b>**Wednesday, September 18th, 2013**</b>	<p><a href="#">Andrew Vickers</a>, PhD, Department of Epidemiology and Biostatistics, Memorial Sloan-Kettering Cancer Center.</p> <p>How do we know whether a predictive model is of clinical value? How do we know whether a molecular marker is worth measuring? A discussion of some simple decision analytic methods</p> <p><b>3:00 pm – 4:00 pm, Education Building, 3700 rue McTavish, room 129</b></p>
<b>24 September 2013</b>	<p><a href="#">Reijo Sund</a>, Adjunct Professor, Senior Statistician, National Institute for Health and Welfare, Helsinki, Finland.</p> <p><b>Topic:</b> Issues and opportunities for register-based data analysis - experiences from Finland</p>
<b>October</b>	
<b>1 October 2013</b>	<p><a href="#">Nandita Mitra</a>, Associate Professor of Biostatistics, University of Pennsylvania.</p> <p><b>Topic:</b> Assessing the sensitivity of cost-effectiveness measures to unmeasured confounding</p>
<b>8 October 2013</b>	<p><a href="#">M'Hamed Lajmi Lakhel Chaieb</a>, Associate Professor, Department of Mathematics and Statistics, Université Laval.</p> <p><b>Topic:</b> Multivariate Survival Cure Model</p>
<b>15 October 2013</b>	<p><a href="#">Marie-Helene Roy-Gagnon</a>, Assistant Professor, Department of Epidemiology and Community Medicine, University of Ottawa.</p> <p><b>Topic:</b> Empirical kinship estimation in the French Canadian founder population</p>
<b>22 October 2013</b>	<p><a href="#">Russell Steele</a>, Associate Professor, Department of Mathematics and Statistics, McGill University.</p> <p><b>Topic:</b> Comparing Approaches for Causal Inference for Recurrent Injury Data</p>

<b>29 October 2013</b>	<a href="#">David Wolfson</a> , Professor, Department of Mathematics and Statistics, McGill University.  <b>Topic:</b> The Analysis of Biased Survival Data
<b>November</b>	
<b>5 November 2013</b>	<a href="#">Jim Ramsay</a> , Professor Emeritus, Department of Psychology; Associate Member, Department of Mathematics and Statistics, McGill University.  <b>Topic:</b> The Statistics of Shock: Dynamics for Epidemiologists and Biostatisticians
<b>12 November 2013</b>	<a href="#">Tibor Schuster</a> , Postdoctoral Fellow, Department of Epidemiology, Biostatistics and Occupational Health, McGill University.  <b>Topic:</b> The curse of (confounder) dimension.
<b>19 November 2013</b>	Olli S. Miettinen, Professor, Department of Epidemiology, Biostatistics & Occupational Health, McGill University.  <b>Topic:</b> Diagnostic research: an orientation
<b>26 November 2013</b>	<a href="#">Samy Suissa</a> , Director, Centre For Clinical Epidemiology, Lady Davis Research Institute - Jewish General Hospital; Director, McGill Pharmacoepidemiology Research Unit; Professor, Department of Epidemiology, Biostatistics & Occupational Health, McGill University.  <b>Topic:</b> The randomized controlled trial: the holy grail of evidence?
<b>December</b>	
<b>3 December 2013</b>	<a href="#">Benoît Mâsse</a> , Applied Clinical Research Unit - Centre de recherche du CHU Sainte-Justine.  <b>Topic:</b> Adjusting for post-randomization variables in HIV prevention trials.
