

Winter 2014	
January	
14 January 2014	<p><u>Marie-Pierre Sylvestre</u>, Assistant Professor, Department of Social and Preventive Medicine, Université de Montréal.</p> <p>Topic: <i>Can multiple imputation and complex survey data with weights ever be friends?</i></p>
21 January 2014	<p><u>Kelly Burkett</u>, Assistant Professor, Department of Mathematics and Statistics, University of Ottawa.</p> <p>Topic: <i>Using gene genealogies to detect rare disease-predisposing genetic variants.</i></p>
28 January 2014	<p><u>Tim Ramsay</u>, Scientist, Clinical Epidemiology, Ottawa Hospital Research Institute; Assistant Professor, Department of Epidemiology and Community Medicine, Faculty of Medicine, University of Ottawa.</p> <p>Topic: <i>When is Dead Really Dead?</i></p>
February	
4 February 2014	<p><u>Jianping Sun</u>, Post-Doctoral Fellow, Department of Epidemiology, Biostatistics and Occupational Health, McGill University.</p> <p>Topic: A Method for Analyzing Multiple Continuous Phenotypes in Rare Variant Association Studies.</p>
11 February 2014	<p>Statistical Jeopardy: Quiz Show</p> <p><u>winners.pdf</u></p>
18 February 2014	<p><u>Michal Abrahamowicz</u>, James McGill Professor, Division of Clinical Epidemiology, McGill University Health Centre (RVH).</p> <p>Topic: Model discrimination: why and how? Insights from Flexible Survival Analyses.</p>
25 February 2014	<p><u>Robert Nadon</u>, Principal Investigator, Genome Quebec Innovation Centre; Associate Professor, Department of Human Genetics, McGill University.</p> <p>Topic: Biostatistics and the Life Sciences</p>
March	
4 March 2014	No Seminar: Study Break

11 March 2014	<p><u>David Buckeridge</u>, Associate Professor, Department of Epidemiology, Biostatistics and Occupational Health, McGill University.</p> <p>Topic: <i>Outbreak Detection in Public Health Surveillance — Challenges and Research Opportunities</i></p>
18 March 2014	<p><u>Christina Wolfson</u>, Professor, Department of Epidemiology, Biostatistics, and Occupational Health</p> <p>Topic: <i>The Canadian Longitudinal Study on Aging: An epidemiological and statistical behemoth.</i></p>
25 March 2014	<p><u>Francois Bellavance</u>, Professor, Department of Management Science, HEC Montreal; Director, Road Safety of Quebec Research Network.</p> <p>Topic: <i>Characteristics of work-related road crashes in Québec</i></p>
April	
1 April 2014	<p><u>Zhihui Liu</u>, PhD Candidate, Department of Epidemiology, Biostatistics & Occupational Health, McGill University.</p> <p>Topic: <i>Measuring the Mortality Reductions due to Cancer Screening.</i></p>
8 April 2014	<p><u>Lawrence Joseph</u>, Professor, Department of Epidemiology, Biostatistics and Occupational Health, McGill University.</p> <p>Topic: <i>Bayesian Sample Size for Linear Regression: Adjusting for Measurement Error and Confounding</i></p>
