CancerCare Manitoba, located in Winnipeg, Manitoba, Canada is a provincial agency which provides clinical and academic services and leadership for cancer control and the treatment of blood disorders. **We invite applications for the position of:**

**SAS Programmer Analyst**  
**Epidemiology & Cancer Registry - MacCharles**  
Perm, Full-time (1.0 EFT)  
Competition #: 421-21-715566702

**Job Summary:**
Under the supervision of the Epidemiology Lead and senior Programmer Analyst, the SAS Programmer Analyst participates in developing and implementing computer programs to extract, compile, and analyze cancer-related data. The incumbent also assists members of other departments in their research activities which involve cancer-related data, particularly that from the Manitoba Cancer Registry and Manitoba Health.

**Qualifications:**  
**Required:**
- Bachelor’s degree in Statistics, Health Information Management, Health Sciences or related fields  
- Minimum 1 - year direct experience in healthcare environment  
- Minimum 1 - year experience with advanced statistical analysis software such as SAS (demonstrated abilities involving data linkage, data manipulation, and use of procedures for statistical analysis).  
- Minimum 1 - year experience with Microsoft Office (particularly Excel)  
- Experience in writing technical reports with a high level of proficiency  
- Satisfactory employment record  
- Must be able to legally work in Canada

**Will be assessed during the interview process:**
- Excellent analytical skills and problem-solving abilities  
- Excellent oral and written communication skills  
- Must have good organization skills  
- Must have good interpersonal skills  
- Able to work independently, as part of a team, and with multidisciplinary healthcare professionals, staff and management  
- Ability to work effectively under pressure to meet scheduled deadlines

**Preferred:**
- Advanced training in data collection, analysis and data management  
- Familiarity with epidemiological concepts and administrative databases

**Asset:**
- Experience working with other statistical languages (R, STATA)  
- Master's degree in a directly related study area such as demography, quantitative social sciences, statistics or community health sciences  
- Bilingual (English/French)

**Salary:** Commensurate with qualifications and education  

**Note:** Direct care workers are required to either be vaccinated for Covid-19 or to participate in on-going regular Covid-19 testing pursuant to Orders made under The Public Health Act C.C.S.M. c.P210. Successful applicants will be notified at the time of offer of the applicability of this requirement for this position.

Please submit a detailed cover letter outlining how you meet the requirements for this position along with a current resume which references the Competition Number:

**CancerCare Manitoba**  
Human Resources Services  
675 McDermot Avenue  
Winnipeg, MB R3E 0V9  
E-mail: ccmbjobs@cancercare.mb.ca  

**Closing Date:** January 9, 2022

This position is subject to a Criminal Record Check, including Vulnerable Sector Search, an Adult Abuse Registry Check and a Child Abuse Registry Check. The successful candidate will be responsible for any service charges incurred.

CancerCare Manitoba is committed to developing inclusive, barrier-free recruitment processes and work environment. If you are contacted by CancerCare Manitoba regarding a job opportunity or testing, please advise if accommodation measures must be taken to enable you to apply and be assessed in a fair and equitable manner.

We thank all that apply and advise that only those applicants selected for further consideration will be contacted.
