

Postdoctoral Research Fellowship in Cancer Epidemiology and Prevention

The Division of Cancer Epidemiology at McGill University announces a new Postdoctoral Research Fellow position in cancer epidemiology and prevention. The Division is affiliated with the Department of Oncology in the Faculty of Medicine and Health Sciences and with the Epidemiology, Biostatistics, and Occupational Health, in the School of Population and Global Health. It houses one of the most productive and recognized cervical cancer research programs worldwide. The successful candidate will assist the Division's research program on human papillomavirus infection and associated cancers, as a member of a multi-disciplinary and collaborative research team.

Duties and Responsibilities

- Leading research projects
- Conducting statistical analyses of data from our portfolio of epidemiologic studies
- Writing manuscripts for publication
- Leading the preparation of grant proposals
- Assisting with the mentoring of graduate students and other trainees.

Qualifications and Skills

- Doctoral degree in epidemiology and/or biostatistics with experience in cancer research, or alternatively, an MD degree with appropriate training in oncology and a MSc degree in epidemiology
- Proficiency with advanced methods of statistical analysis of epidemiologic data (e.g., using Stata, SAS, R)
- Strong oral and written communication skills

Compensation: Competitive scholarship with annual stipend increases above the rate of inflation. Funding to attend national and international conferences

Start date: Summer 2021. The position is located in Montreal, Quebec, Canada (5100 Maisonneuve Blvd West, Suite 720). Work remotely: temporarily due to COVID-19

Application: Cover letter describing research experience and interests, unabridged CV, list of references and contact information. Documents and inquiries must be sent via [Email](#) to Dr. Eduardo Franco, Professor and Director, Division of Cancer Epidemiology. For more information about the Division, please visit the website at <https://www.mcgill.ca/cancerepi/>. Candidates whose applications fit the scope of this announcement will receive a reply.

McGill University is committed to equity in employment and diversity. It welcomes applications from indigenous peoples, visible minorities, ethnic minorities, persons with disabilities, women, persons of minority sexual orientations and gender identities, and others who may contribute to further diversification. In accordance to immigration law requirements, Canadian citizens and permanent residents will be given preference.
