Course Description:
This course aims to provide a comprehensive introduction to modern epidemiologic concepts and methods. This course provides, at the graduate level, fundamental concepts, principles, and methods of epidemiologic research and study design. Topics include definitions, measures of disease frequency and effect, epidemiologic study designs, biases and confounding.

Location
Purvis Hall
1020 Pine West, Montreal, Quebec. H3A 1A2

Schedule
Monday and Wednesday, 10:35 AM to 12:25 PM, Fall 2017

Teaching Qualification Requirements:

Education
PhD students in Epidemiology or completed PhD in Epidemiology.

Experience
Successful completion of comprehensive examinations.

Other Information
Candidates will complete and submit a Course Lecturer application form found on the following website: [https://www.mcgill.ca/epi-biostat-occh/employment](https://www.mcgill.ca/epi-biostat-occh/employment) as well as a cover letter describing their interests & qualifications, and a CV.

Candidates who are currently students must also submit a letter of reference from their supervisor approving their application.

Contract duration: September 5, 2017 - December 7, 2017

Submit complete application to: chair.epid@mcgill.ca

This job is posted in accordance with Article (15.04) of the Collective Agreement. McGill encourages all qualified applicants to apply for job openings; however, in keeping with the terms and provisions of the collective agreement, the Hiring Unit shall allocate courses by decreasing order of priority points held in the Hiring Unit in accordance with Article (15.08).

McGill University is committed to equity in employment and diversity.
