

ARE YOU INTERESTED IN A CAREER IN DIGITAL HEALTH INNOVATION?

Check out the [Masters Concentration in Digital Health Innovation](#), offered jointly by McGill University's departments of Experimental Medicine and Experimental Surgery.

Leading to either an MSc Experimental Surgery (Digital Health Innovation) or an MSc Experimental Medicine (Digital Health Innovation), the program aims to train a new generation of clinical and informatic scientists to partner in developing and evaluating new digital technologies. Students are grounded in the basics of:

- Clinical Epidemiology
- Medical Artificial Intelligence (AI)
- Clinical Innovation
- Applied Data Science

Program Information & How to Apply

You can find out more about the program on the webpages of the departments of [Experimental Medicine](#) and [Experimental Surgery](#)

Application Deadlines - Fall 2021
