& the **Family Medicine Education Research Group - FMER**

Does Spaced Education Improve Clinical Knowledge among Family Medicine Residents? A cluster randomized controlled trial

Dr. Roland Grad is a practising family doctor and researcher at McGill. His research centres around knowledge translation and medical education, with a focus on how health professionals use research-based information.

More about his work can be found in a book titled *"Look it up! What Patients, Doctors, Nurses, and Pharmacists Need to Know About the Internet and Primary Health Care"*
