## The Imperative of Engaging Patients in Research & Quality Improvement: Developing know-how

**Friday April 23, 2021  
12:30pm-1:30pm**

**Free Admission · REGISTER HERE**

This seminar and discussion will address both the theory and practice of engaging patient partners in research and quality improvement activities. Facilitators will share best evidence of patient involvement in terms of benefits, and conditions supportive of effective patient engagement. The facilitators will share experiences from different perspectives, including from the patient, clinician, facilitator and researcher perspective, and also the collective wisdom of seminar participants.

Webinar moderated by *Deanna Chinerman*
