Dr Lussier is a full professor in the Family Medicine and Emergency Medicine department at Université de Montréal. Until recently, she practiced family medicine at the academic Family Health Team in Ville de Laval (Québec). She is the director of the RRSPUM (www.rrspum.ca), the FM Department's PBRN since 2012 and she is co-director of the Québec node of the Canadian Primary Care Sentinel Surveillance Network since 2010. Her main research interests are chronic disease management and polypharmacy in primary care with a focus on healthcare provider-patient communication and the use of information technology. She has co-authored more than 100 papers in French and English on these subjects. She is also co-editor of the only French language textbook on health communication "La communication professionnelle en santé" (2005 and 2016) used in many health sciences faculties of French speaking countries around the world.
