

Faculty Development Committee

CLSC Cote-des-Neiges – Faculty Development Site Lead

TERESA RUDKIN, MD is an Assistant Professor and clinical teacher at the CLSC Côte-des-Neiges. She has been on the Faculty Development committee since 2008. Her academic interests have included ensuring that our Postgraduate curriculum aligns with the CCFP 99 Priority Topics, strategies for program evaluation, and making academic teaching fun. Her personal journey as parent, clinician and as teacher is guided by an old Zen story in which a student approaches his dying teacher. The student asks his teacher: *“What is the teaching of your entire lifetime?”*. The teacher replies: *“An appropriate response”*.
