

Faculty Development Committee

St. Mary's Hospital Family Medicine Center –

Faculty Development Site Lead

I am a Family Physician working in Geriatrics at St Mary's Hospital.
I also work as a clinician and supervisor at St Mary's Family Medicine Center.
I am a McGill Faculty Lecturer, and Site Director at St Mary's for the McGill Undergraduate Geriatrics Program.

I am relatively new to faculty development for teachers. I have been so focused on the learners that it took a few sessions of faculty development to make me realize that I am a learner as well! I find it stimulating to be able to learn more on how I can improve my teaching skills for residents in training. I am excited to embark on this new chapter in my career as co-site lead for St Mary's Family Medicine, McGill Faculty Development.

My current academic interests are to keep improving and refining my teaching skills. I have taught students and residents for many years and it is important to reflect on how I teach and why I continue to teach.

One of my favorite quotes is "The most wasted of days is one without laughter". I love to laugh and start the day with positive thoughts. I also enjoy making other people laugh.
