

Academic Curriculum

Contents

- Mini-courses
- Mandatory On-line Modules
- Exam practice
- Weekly Academic Half Days
 - Priority topic based
 - Resource stewardship (Choosing Wisely)
 - Patient safety (CMPA resident seminar)
 - Ice cream rounds and Resident Wellness activities
- Centrally Organized Academic Activities
 - CanMed-FM based
 - Simulation Centre
 - Biomedical Ethics

ICE-CREAM ROUNDS

These are organized every 6 months with the WELL Office. These rounds provide a confidential, safe space for residents to support each other. These are facilitated by the faculty's wellness consultant and help develop reflective practice and resiliency skills.

MANDATORY ONLINE MODULES

"Teaching residents to Teach/ Apprendre aux résidents à enseigner" 2018-019

- Module 1: Clinical Teaching/ Enseignement Clinique
- Module 2: Interactive Lecturing/ Enseignement interactif
- Module 3: Technical Skills/ Habilités technique
- Module 4: Feedback/ Reétroaction
- Module 5: Role modeling/ Enseignement par l'exemple

"Family Medicine: Introduction to Research and Scholarly Activity 2018-2019" (NEW)

All modules will be translated into french By July 2018

- Module 1 – Forming a clinical (PICO) question / Formulation d'un question clinique
- Module 2 – Performing a literature review/Revue de littérature
- Module 3 – Critical appraisal/ évaluation critique
- Module 4 – Quality improvement / Amelioration de la qualité

ACADEMIC HALF DAYS

Our residents have "protected teaching time"/Academic Half Day teaching and learning activities each Wednesday afternoon. For the most part, these sessions are organized by the sites. The Priority Topics and the CanMEDS-FM roles (the CFPC evaluation objectives) are the main focus of these sessions. A suggested calendar in which the Priority Topics are covered between 41 weeks between the beginning of PGY-1 and the CFPC licensing exams. A suggested 42-week calendar is provided below.

July 1-----Priority Topics----- April 20

← 41 weeks per academic year (approximately 9 organized by Central Program per year) →

Approximately once per month, a centrally-organized activity addresses the CanMEDS-FM roles. Examples of these sessions include:

- **Resource Stewardship**

Choosing Wisely Canada – CanMEDS Resource Stewardship Curriculum Toolkit Series.

The website includes a powerpoint presentation, a preceptor guide, and role play scripts -

Workshops:

- Foundations of Stewardship
- Communicating with patients and families about resource stewardship

Toolkit for session organizers:

Eng <http://www.royalcollege.ca/rcsite/canmeds/resource-stewardship-e>

Fr <http://www.royalcollege.ca/rcsite/canmeds/resource-stewardship-f>

- **Patient Safety**

If unable to join for **CMPA Patient Safety day** on Feb 4th, sites are strongly encouraged to invite the CMPA for their own site for the sessions: <https://www.cmpa-acpm.ca/fr/education-events/resident-symposium>

CMPA: Soins médicaux sécuritaires – À vous d’agir!

-Sujets: > Embûches pour les residents; Consentement éclairé; Documentation, Divulgence d’un préjudice, travail d’équipe et délégué; Surmonter les obstacles
