

# MCGILL FAMILY MEDICINE RESEARCH SEMINARS

## “MAKING PERSONALIZED MEDICINE WORK: DATA, DATA EVERYWHERE, BUT WHAT IS A FAMILY DOCTOR TO THINK?”

**Dr. Amalia Issa**

Dr. Amalia M. Issa, PhD, MPH, FCPP, is an internationally recognized scientist in the field of personalized genomic medicine, is currently Professor at the University of the Sciences in Philadelphia and the founding Director of the Personalized Medicine and Targeted Therapeutics Center (2001). The mission of the center is to develop the evidence base for, promote informed decision making about, and accelerate knowledge translation of personalized medicine applications into, meaningful health outcomes through state-of-the-art research, training programs, consultation to government agencies on public policy initiatives, and national and international collaborations.
