

# MCGILL FAMILY MEDICINE RESEARCH SEMINARS

## “ARE CURRENT ASTHMA MANAGEMENT GUIDELINES EFFECTIVE FOR CHILDREN WITH EXCESS WEIGHT?”

Cristina Longo

Cristina Longo is a PhD candidate in the Department of Family Medicine at McGill University. Her expertise is in pharmacoepidemiology and comparative effectiveness research. Her current areas of research concern the evaluation of prescribing practices on health outcomes for obese patients, deliberative engagement methods for knowledge translation, and personalized medicine in the context of primary care. She will be presenting findings from her PhD project, which explores the role of weight status on the effectiveness of maintenance therapies in children with asthma.

Thursday November 24, 2016  
From 12:30-2:00 p.m.  
Department of Family Medicine  
5858 ch. de la Côte-des-Neiges, 3rd floor, suite 300

### BRING YOUR LUNCH!
