Taxis and public transport are advised.

More details:

From 2006-2012 Dr. Graham was on an interchange with the Canadian Institutes of Health Research where he held the position of Vice-President of the Knowledge Translation and Public Outreach.

His research focuses on knowledge translation (the process of research use) and conducting applied research on strategies to increase implementation of evidence-informed practice. His research in KT has been in the areas such as cancer care, stroke care, maternity care, wound care, heart failure, practice guidelines, decision support tools, as well as KT framework and model development. He has published over 250 peer reviewed articles and is co-editor of Knowledge Translation in Health Care (2013) and Evaluating the Impact of Implementing Evidence-based Practice (2010).

Cannot make the seminar physically, but would like to attend? Contact research.fammed@mcgill.ca to inquire about other options. (Please Note: Students from FMED 504 are expected to be there)..
