

MCGILL FAMILY MEDICINE EDUCATIONAL RESEARCH GROUP (FMER) ADVANCED SEMINARS

“The ‘99 Week’ study: An intervention to improve scores on the Certification Examination in Family Medicine”

Dr. Roland Grad & Dr. Pierre Pluye

Dr. Roland Grad is a practicing family doctor at the Herzl Clinic and Associate Professor of Family Medicine at McGill. His main research interest is studying the use of clinical information by doctors, nurses and pharmacists to improve the health and health care of patients.

Dr. Pierre Pluye, is a Senior Research Scholar and Associate Professor, Department of Family Medicine, McGill University. He has expertise in mixed methods studies and mixed studies reviews. He studies participatory research with organizations, and the health outcomes associated with the use of information derived from electronic knowledge resources. He has co-developed with Dr. Grad the Information Assessment Method.
