

MCGILL FAMILY MEDICINE RESEARCH SEMINARS

“LIVING SYSTEMATIC REVIEWS: A NOVEL APPROACH FOR REDUCING RESEARCH WASTE AND ADVANCING THE SCIENCE IN DIABETES QUALITY IMPROVEMENT INTERVENTIONS”

Dr. Sathya Karunanathan

Sathya Karunanathan holds a PhD in epidemiology from McGill University. She joined the Clinical Epidemiology Program at Ottawa Hospital Research Institute in 2016 as a postdoctoral fellow to pursue her interests in healthcare knowledge translation, implementation science and systematic review methodology. She is currently conducting a Living Systematic Review of diabetes Quality Improvement interventions, and is leading an international initiative to develop guidance on when to replicate systematic reviews.

Thursday February 22, 2018
