

MCGILL FAMILY MEDICINE EDUCATIONAL RESEARCH GROUP (FMER) ADVANCED SEMINARS

MCGILL DEPARTMENT OF FAMILY MEDICINE, RESEARCH DIVISION
& MCGILL FAMILY MEDICINE EDUCATIONAL RESEARCH GROUP (FMER)

PRESENT:

“ONLINE LEARNING IN FAMILY MEDICINE: INNOVATION IN EDUCATION”

with

Dr. Tamara Carver

This seminar will focus on the evolution of e-learning through the years and on future trends in education using blended and online learning. We will talk about the principles of active learning to engage learners, how you can use e-learning for your teaching and knowledge translation, and the advantages and disadvantages of using these technologies and approaches.

Dr. Tamara Carver, PhD, is a post-doctoral fellow in the Department of Family Medicine at McGill University and the Scientific Director of the McGill Primary Health Care Research Network. Her research focuses on program evaluation of blended and online learning in the field of Medical Education. She is an experienced designer and developer of online instruction using educational technologies.

Thursday September 8, 2016
From 12:30-2:00 p.m.
