

Acknowledgment of conditions of use

- I hereby authorize members of my laboratory to use the facilities and services of the Metabolomics Core Facility.
- I understand that I will be billed accordingly at the current rates posted on the Facility website, by email, or quotation which have been approved by the Metabolomics Core Facility Oversight Committee, and I will remit payment promptly when invoiced.
- Any publication generated from non-routine analyses, untargeted analyses or analyses requiring de novo method development will include the appropriate MCF staff members as co-authors. Before submission of the manuscript, experimental sections, figures and results related to the work done by the MCF must be reviewed by the MCF.
- Any publication generated from routine work carried out by the MCF will credit the facility and a reprint will be submitted to the facility manager.
- Any patent or intellectual property developed in conjunction with the MCF will include the appropriate MCF staff members as co-inventors.
