

Part time Instructor in GEOG 322 (Environmental Hydrology)

Position: We require a part-time instructor to cover approximately one-half of GEOG 322 Environmental Hydrology. The course lecturer would be responsible for 12 to 14 lectures covering mainly soil water hydrology, runoff hydrograph and runoff processes, and the hydrology of wetlands/peatlands, forested catchments and permafrost regions. The course lecture would work in collaboration with the other instructor in the course. The successful applicants would also be responsible for two take home assignments and the course precis and annotated bibliography project.

Salary: \$4,110.00 (salary may increase due to new collective agreement)

Term: Winter 2019 semester

Qualifications: A PhD in physical geography or related environmental science with an excellent understanding of the processes in catchment hydrology. Be a good communicator and have good course management skills. Experience with teaching undergraduate level hydrology is a definite asset.

The University may, at its discretion, assign the person of its choice to give this Course/Teaching.

Please apply by e-mail with a letter of interest explaining how you think the course should be designed and a CV to Marisa Mastroberardino marisa.mastroberardino@mcgill.ca Administrative Assistant, Department of Geography, McGill University by October 31, 2018.
