Course overview: This course is an introduction to urban geography. It uses a geographic perspective to understand cities, and the economic, political, social, and cultural processes that shape them. The class is divided into two parts. The first part covers the historical development and internal structures of “industrial” cities, and the efforts to bring order to them through urban planning, focusing primarily on North America and Europe. The second part uses critical urban theory and case studies from a range of cities around the world to consider various topics on the theme of social justice and the city.

Note: In the event of extraordinary circumstances beyond the University’s control (e.g., public health emergency, major political crisis, sharknado, etc.), the content and/or evaluation scheme in this course are subject to change.

Required texts: All readings for GEOG 217 are available electronically through myCourses, in compliance with copyright regulations.

Assessment: Per Faculty of Science policy, work submitted for evaluation as part of this course may be checked with text matching software within MyCourses.

Information on university and department policies concerning student assessment can be found at the following website: www.mcgill.ca/geography/studentassessment

Teaching Assistants: The TAs serve primarily as graders for course, and typically will not meet with students. If you have questions about the course material, you should speak with one of the instructors.

Communication: All course-related communications should be done by email. We will make every effort to respond to email within 48 hours but may not always be able to do so. We encourage you to see one or both of us during office hours.

Expectations: Assignments, including the set reading, should be completed in a timely fashion. Illness or family misfortune are legitimate reasons for extensions on assignments or the postponement of exams. In such cases, please advise the instructors in advance of the assignment due date or exam whenever possible to make suitable arrangements.

Examinations: The standard rules for closed book, closed note exams apply: You must not receive any assistance during the exam, and your answers must be entirely from your own effort. You are allowed – and encouraged – to form and participate in study groups to help *prepare* for the examinations.

Participation: This is a large lecture class, and there is no formal credit for class participation. Nonetheless, we expect you to be *active listeners*: attend class, take notes, and ask questions. Disruptive activities such as excessive talking, using social media, emailing, levitating, newspaper reading, and the like will not be tolerated. Students doing so will be told to leave class.

We encourage you to see one or both of us during office hours to discuss questions you have about the course material.

Deferred examination policy: If you are unable to attend an examination due to illness or other legitimate reason, you will be offered a deferred examination during the lecture period as indicated on the schedule. The deferred examination will be different from, but equivalent to, the original test.

Students who miss the test should notify us by email within 24 hours of the exam (preferably before the exam begins).

If a student misses the first deferred exam and/or lacks an adequate excuse for missing the original exam, they *might* be allowed to increase the weight of the final exam to partially compensate for the midterm exam. The *ability* to do so, and the associated *penalty* are at the sole discretion of the instructors.

Late Assignment Policy: The project for the class has two deadlines (see below). In general, the same guidelines apply to the assignment deadlines as to the examinations. To avoid delays caused by last-minute emergencies, you should complete and submit your assignments *well before* the deadlines. In general, assignments turned in up to three days after the deadline will receive a mark no higher than B (74). Assignments that are submitted more than three days late but before the final day of classes will receive a mark no higher than C (64). Assignments submitted afterwards will receive no credit.

You are encouraged to consult with the instructors about the project before the deadline. *No consultation will be offered after the deadline regardless of circumstances.*

Grading: Grading will be done using the standard McGill grading grid (A=100 to 85; A- = 80 to 84; etc.) Depending on the distribution of scores, we may elect to curve letter grades (e.g., A=100 to 83; A- = 78 to 83; etc.) at the end of the semester.

Project: You will receive detailed directions for the project during the semester.

Other Policies and Notices:

Copyright: © Instructor-generated course materials (e.g., lectures, slides, notes, summaries, assignments, etc.) are protected by law and may not be copied or distributed in any form or in any medium without explicit permission of the instructor. Note that infringements of copyright can be subject to follow up by the University under the Code of Student Conduct and Disciplinary Procedures.

Language: Conformément à la Charte des droits de l'étudiant de l'Université McGill, chaque étudiant a le droit de soumettre en français ou en anglais tout travail écrit devant être noté.

In accord with McGill University's Charter of Students' Rights, students in this course have the right to submit in English or in French any written work that is to be graded.

Academic Integrity: McGill University values academic integrity. Therefore, all students must understand the meaning and consequences of cheating, plagiarism and other academic offences under the Code of Student Conduct and Disciplinary Procedures (see www.mcgill.ca/students/srr/honest/ for more information).

L'université McGill attache une haute importance à l'honnêteté académique. Il incombe par conséquent à tous les étudiants de comprendre ce que l'on entend par tricherie, plagiat et autres infractions académiques, ainsi que les conséquences que peuvent avoir de telles actions, selon le Code de conduite de l'étudiant et des procédures disciplinaires (pour de plus amples renseignements, veuillez consulter le site www.mcgill.ca/students/srr/honest/).

Indigenous Land Statement: McGill University is on land which has long served as a site of meeting and exchange amongst Indigenous peoples, including the Haudenosaunee and Anishinabeg nations. We acknowledge and thank the diverse Indigenous people whose footsteps have marked this territory on which peoples of the world now gather.

L'Université McGill est sur un emplacement qui a longtemps servi de lieu de rencontre et d'échange entre les peuples autochtones, y compris les nations Haudenosaunee et Anishinabeg. Nous reconnaissons et remercions les divers peuples autochtones dont les pas ont marqué ce territoire sur lequel les peuples du monde entier se réunissent maintenant.
