

HONOURS THESIS SUPERVISOR AND READER ACCEPTANCE FORM
GEOG 491 or 492 (Joint) Honours Research

By signing this Agreement, the Supervisor agrees to provide reasonable guidance and feedback throughout the Honours thesis program, including the initial summer period, and the Reader agrees to provide feedback on a final draft and co-grade the thesis. The Honours thesis follows a thesis-based approach rather than manuscript/article-style model, and requires independent student research beyond that of an RA-type role.
