ANNUAL REPORT

2001 - 2002

DIVISION OF GERIATRIC MEDICINE
www.med.mcgill.ca/geriatrics

DEPARTMENT OF MEDICINE

McGILL UNIVERSITY

Howard Bergman, MD

JUNE 2002
The McGill University Division of Geriatric Medicine of the Department of Medicine is comprised of faculty from the Divisions of Geriatric Medicine of the Jewish General Hospital (JGH), the McGill University Health Centre (MUHC), and from the affiliated division at St. Mary's Hospital. Faculty from the Department of Family Medicine also play a key role in the Division. There are links with the Division of Geriatric Psychiatry of the Department of Psychiatry. Faculty from Epidemiology, Basic Science and Neurology with an active and significant interest in aging research and who have been involved in research with division members are integrated in the division. Investigators from other departments continue to show interest and have requested joining the Division. There is ongoing and close collaboration for clinical work, teaching and research with nursing, physiotherapy, occupational therapy and social work. In the past several years, we have collaborated with the Division of orthopedic surgery in the organization of successful CME events. There is significant collaboration with our colleagues from the Université de Montréal as well as other Quebec and Canadian Universities in areas of research and program development. International collaboration has also considerably developed.

The Division Executive now includes Drs. Allen Huang (MUHC Division Director), Yves Bacher (McGill Geriatric Medicine Residency Program Director), Howard Chertkow, Ruby Friedman and Christina Wolfson, reflecting our academic objectives.
1. RESEARCH AND PUBLICATIONS

1.1 Research activity

Please see Appendix I for the list of research projects, Appendix II for publications, book chapters and abstracts, Appendix III for lectures, Appendix IV for honors and awards, Appendix VI for graduate students, Appendix IX for the Annual Research Day Program. Research in neurobiology and dementia, informatics, health services, pharmacoepidemiology, nutrition, and rehabilitation continue to represent the existing strengths of the Division with programs that cross hospital, department and University lines and in some cases integrate bench to bedside to population. There is increasing collaboration with colleagues from Quebec, Canada and internationally.

In the past year, members of our Division lead major research programs with funding from the Canadian Institutes on Health Research (CIHR), the Canadian Foundation for innovation (CFI) and Valorisation Recherche Québec (VRQ). These major research teams bring together investigators from Quebec, Canada and internationally. Dr. Allen Huang, with Robyn Tamblyn’s group, projet IRIS-Quebec & Cyber-Santé; Dr. Howard Chertkow and other colleagues from our McGill Division and colleagues from the Université de Montréal on Cognitive Impairment in the Elderly. Howard Chertkow is also leading a Canadian effort to create a Network of Centres of Excellence (NCE) on dementia; Drs Howard Bergman and François Béland, co-directors of Solidage: McGill/Université de Montréal Research Group on Integrated Services for the Elderly on The Challenge of Understanding and Meeting the Needs of the Frail Elderly in the Canadian Health Care System. Other members of our Division actively involved include: Johanne Monette, Christina Wolfson, and Wendy Chiu. Johanne Monette continues to develop a Collaborative Research Network in Long-Term Care.

Because of these strengths, the Division has played an important role in the development of the FRSQ Quebec Research Network on Aging (Réseau de Recherche sur le Vieillissement). Members of the Division are on the Executive of the Réseau and are present in all sub-themes.

The Division has two geriatricians with FRSQ chercheur-clinicien career awards: Dr. José Morais and Dr. Johanne Monette. Dr. Nadine Larente, a geriatrician in our Division, is continuing her PhD in bioethics at the Université de Montréal.

The geriatric fellows who have very recently completed their training have shown a strong performance in Research. Gustavo Duque is a PhD student in Experimental Medicine (Aging bone metabolism) and Dr. Cara Tannenbaum is completing her Master’s in Epidemiology (Women’s health) at McGill.

The Hutchison award for 2002 was given to Dr. Gustavo Duque for a project concerning the new medical student clerkship experience in geriatric medicine. This challenging teaching task is set to begin in September 2002.

1.2 Research Day
Under the responsibility of Tina Wolfson, this year our McGill Division held its 7th Annual Research Day, jointly with the FRSQ Réseau de recherche sur le vieillissement and the Société Québécoise de Gériatrie. A round table discussion on innovative programs for training investigators was held. Oral and poster presentations, essentially all from students, residents, fellows and post-docs, were presented.

Two $750 prizes were awarded by a jury of faculty members to: Daniel Berlin (MSc Student, Department of Neurology and Neurosurgery, McGill University) on *Is HO-1 mRNA in Alzheimer Mononuclear Cells Chemically Unstable?* and to Elise Levinoff (MSc Student, Department of Neurology and Neurosurgery, McGill University) on *Cognitive estimation and dementia: Can the weather in France predict frontal lobe dysfunction?* for best oral presentations in basic science research and clinical health research respectively.

Two $300 prizes were awarded to Anh Duong (PhD Student, Centre de recherche, Institut universitaire de gériatrie de Montréal on *Discourse about Discourse: What is it and how does it progress in Alzheimer’s Disease?* and to Ilona Gauthier on *La problématique de la dépression et de l’anxiété chez les personnes âgées* for the best poster presentations in basic science research and clinical health research respectively. Approximately 80 people attended the Research Day and an abstract book was distributed (Appendix IX).

As well, two $750 prizes were awarded by la Société Québécoise de Gériatrie: The Prix Roger Dufresne was awarded to Josée Filion (Resident in Geriatrics, University of Montreal) on *Prévalence de la démence et de son traitement sur une unité de courte durée gériatrique* and the Prix de la recherche was awarded to Thomas Vogel (Chercheur postdoctoral, Unité de recherche en Gériatrie, Université de Laval) on *Durée optimale de l’antibiothérapie dans l’infection urinaire non compliquée de la femme âgée : étude randomisée en double aveugle.*

1.3 Students/Fellows Research Club - MAGIC (Montreal Aging and Geriatric Interactive Club)

This year the Research Club was organized on a more targeted fashion with two visiting professors invited for the McGill Geriatric Medicine Grand Rounds series.

1.4 Travel grant

For the sixth year, the Division’s Executive distributed travel grants to several residents and postgraduate students.
2. EDUCATION

2.1 Joint Education/Training Committee

**Undergraduate medical students:** After over six years of teaching Geriatrics in ICMB, the Faculty Curriculum Committee asked our Division to organize a clerkship in Geriatric Medicine for all medical students (third and fourth year). Geriatric Medicine faculty is involved in teaching two modules in I.T.P. as well the integrated course in the first year.

Dr. Gustavo Duque, with the collaboration of Dr. Susan Gold and the support of his committee including Drs Catherine Ferrier and Paul Heilpern, is preparing the Clerkship Curriculum with innovative methods for teaching and evaluation. This will be a tremendous challenge for our Division which will be receiving 12 medical students every month.

We plan to look at the Curriculum of Aging in first and second year as well.

**Medical residents:** All medical residents as well as neurology residents have a one-month rotation in Geriatric Medicine in their first year. Dr. Wendy Chiu is now responsible for this program.

**Family medicine residents:** All family medicine residents as well do one month of Geriatric Medicine.

**Geriatric Medicine Specialty Training Program:** Dr. Yves Bacher is the Program Director. In July 2001, one trainee began the program and a second, Dr. Isabelle Kammermann, will begin in July 2002.

**Health care for the Elderly Training Program:** In the past eight years we have trained 15 fellows. Dr. Najmi Nazerali is the Director, and Dr. Sylvia Windholz is the Associate Director of this program. In the past year, there were no trainees.

2.2 Post-graduate Courses

Dr. Gustavo Duque participates as a teacher in courses in biology of aging. Dr. Christina Wolfson gives a course on epidemiology of aging in the Department of Epidemiology and Biostatistics while Dr. Nancy Mayo gives a course in methodology to graduate physiotherapy and occupational therapy students. Dr. Bergman is involved in the MD/MBA course in the McGill Faculty of management and in a new joint Faculty of Medicine/Faculty of Management Initiative. Division members have given lectures in courses in other faculties and universities.

2.3 Education Activities with other McGill Schools and Departments

Dr. José Morais organized our participation in a series of lectures for the McGill School of PT and OT.

2.4 Rounds
a) McGill University Geriatric Medicine Grand Rounds

In October 1994 the Division inaugurated the McGill University Geriatric Medicine Grand Rounds. We have now completed our eighth year. Please see the full program in Appendix VIII. Eight speakers including four local speakers and four visiting professors were part of this year's program. The visiting professors spent two days at McGill giving the Geriatric Medicine Grand Rounds, a Medical Grand Round in one of the three teaching hospitals, as well as meetings with McGill scientists, graduate students and post-doc and residents interested in a particular field. Speakers meet the Research Club and participate in special seminars.

b) McGill University Interdisciplinary Rounds

The Interdisciplinary Rounds were organized this year under the leadership of Caryn Nash and a committee of representatives from the hospitals, rehab institutes, CLSC’s and long-term care institutions. These rounds held one per month attracted approximately 50 people per meeting. Please find enclosed a copy of this year's program in Appendix X.

c) Hospital Division Rounds

The hospital Divisions organize rounds as well. The MUHC has weekly joint rounds with local and visiting speakers and the JGH has regular Journal Club. Both Divisions hold regular presentations by residents. The Jewish General Hospital/McGill Memory Clinic holds Research Rounds – an Interdisciplinary Research Round organized by the Bloomfield Centre for Aging, the Department of Biostats and Epidemiology, and the Division of Geriatric Medicine (BEG).

2.5 Continuing Medical Education

With the help and encouragement of Dr. Michael D. Rosengarten of McGill Continuing Medical Education, Geriatric Medicine now has a section on the Continuing Medical Education website (http://www.med.mcgill.ca/~cme/html/cmevidOd.html) where lectures in particular from the Geriatric Medicine Grand Rounds series, as well as other lectures given by members of our division or others on geriatric topics can be viewed directly.

Members of the Division actively participated in various activities of continuing medical education including the Thursday evening lecture series. In March 2002, Paul Lysy with Yves Bacher and Susan Vaitekunas organized the very successful McGill Geriatric two-day CME course (held every two years).
3. CLINICAL ACTIVITIES

The organization of clinical activities is under the responsibility of each of the hospital Divisions of geriatric medicine at the MUHC (Montreal General and RVH sites), Jewish General Hospital, and St. Mary’s. There has been some sharing of resources in the past and this will likely continue to grow. As well, there have been agreements on the development of tertiary care activities. Finally, recruitment is done as a joint activity of the University and each of the hospital Divisions.

It is worth noting that the McGill University Division of Geriatric Medicine through its hospital Divisions assumes an extremely important clinical load and is perhaps one of the most complete Divisions in the country in terms of its breath and scope. In the McGill hospitals there are a total of over 100 acute geriatric beds and the Divisions assume the responsibility for approximately 150 long-term care beds situated within the hospitals. All the Divisions run active consultation services in the Emergence Room as well as on the medical, surgical and psychiatric wards. In the last year there were close to 4000 consultations done in the emergency room and on the wards. As well, there are outpatient geriatric clinics in each of the sites, as well as a Geriatric Day Hospital at the MUHC/RVH site. There is a tertiary care Memory Clinic at the JGH and a tertiary care incontinence clinic at the MUHC/MGH site. Each of the sites are actively involved in other community outreach programs with the CLSC home care services and community intermediate resources. Geriatricians and other members of the multidisciplinary team participate actively in program planning and management for services of the elderly in each of the hospitals as well as with the CLSCs, the Regional Board and the Ministry.

4. INTERNATIONAL ACTIVITIES

The work on the international scene has continued to develop considerably in the past year. Members of the Division continue to be invited as speakers, often in major plenary sessions, in many and varied international scientific meetings and forums. This has led to international collaboration in research endeavours in Europe, United States, Latin America and Israel. Members of the Division have been named to boards of international peer-reviewed journals.

Our education program continues to develop, particularly in Latin America, thanks to the efforts of Gustavo Duque and Sylvia Windhoz.

Two Brazilian Geriatric Medicine Residents did 2-month observerships in our Division this year. A fellow from Switzerland will begin his training in July 2002 in our Geriatric Medicine Specialty Training Program.

Members of the Division were actively involved in a symposium organized by the Quebec government on the organization of care for the elderly in Latin America.
Members of the Division are actively involved in American Geriatric Society International Special Interest Group.

Many members of the Division organized and chaired symposia as well as presented papers at the International Association of Gerontology Meeting in Vancouver in July 2001. Reflecting increasing research collaboration, Professor Fred Paccaud, Director of the Institut Universitaire de Médecine Sociale et Préventive de l’Université de Lausanne in Switzerland, has been appointed adjunct Professor in our Division.

5. WEBSITE

Thanks to the work of Shek Fung with the help of Allen Huang, Gustavo Duque and Carol Novoseller, our website (http://www.med.mcgill.ca/geriatrics/) is now up and running as well as a work in development. It should become a central point of communication for those interested in finding out about what our Division does or communicating our monthly Calendar of Events and for announcing various rounds, etc., as well as an instrument for the teaching of medical students and residents.

6. MISCELLANEOUS

McGill University and the Faculty of Medicine created an endowed Chair in Geriatric Medicine: The Dr. Joseph Kaufmann Chair in Geriatric Medicine. The Chair is possible because of a generous endowment from the The Henry and Berenice Kaufmann Foundation chaired by Dr. Robert Levine. Howard Bergman is the first Dr. Joseph Kaufmann Professor of Geriatric Medicine. The Chair also receives support from the Jewish General Hospital Foundation.

It should be noted that this is only the second endowed Chair in Geriatric Medicine in Canada (A third was just created at the University of Toronto and a fourth is on its way at MacMaster University).

This Chair is a testimony to the progress of Geriatric Medicine and Aging as an academic discipline.

7. CONCLUSION

There is no doubt that the McGill Division of Geriatric Medicine has developed considerably in the area of education as well as research and publications. In fact, if one looks at the depth and variety of the education activities and if one looks at the importance of the research programs in terms of the amount of peer-reviewed and industry funding, as well as publications, our Division is making important contributions to the field of Geriatric Medicine and Aging. It is a testimony to the work of the members of our faculty who continue to maintain the very important clinical load. (see section 3)

There are several important challenges in the upcoming year.

**Teaching**
The clerkship will begin in September 2002 and will be our teaching challenge for the coming year.

**Clinical**
The consolidation of the merged divisions at the RVH/MGH still requires a significant amount of energy and collaboration. Recruitment is still a priority for our Division. As we consolidate our Divisions at the MUHC, as well as at the JGH and St.Mary’s, we can think of effective cross-appointments at the clinical level.

**Research**
We will need to continue to train new investigators and be involved in strategic research programs in development at the FRSQ and CIHR.

**Acknowledgements**
I would like to express my special appreciation to Dr. Robert Levine of the Kaufmann Foundation and Ms. Anita David of the Gustav Levinschi Foundation who continue to be a source of counsel and advice for our Division. They have constantly supported innovative clinical work and research in our hospital Division.

I would like to express my appreciation to Carol Novoseller who is instrumental in the organization of the McGill Geriatric Medicine Grand Rounds and who assures the administration base for our Division, to Elizabeth Iacono, Enza Volpe and Renée Kaminski for secretarial and organization support in all our division activities.

Respectfully submitted,

Howard Bergman, MD

The Dr. Joseph Kaufmann Professor of Geriatric Medicine

HUANG Allen

(Data unavailable for current year)

JASSERAND Françoise

Member of the Elder Abuse Consultation Team, CLSC René Cassin

LEBLANC Andrea

University
1996-2003  Member of Graduate Student Committee of the Neuroscience Department, McGill

National
1999-2002  Member of Medical Research of Canada Study Section Neuroscience A
2002  Member of site visit FRSQ for evaluation of Geriatric Center in Quebec. Jan 29

International
1996-2001  American Federation for Research in Aging (AFAR), member of AFAR's National Scientific Council
1998-2001  National Institutes of Health, Division of Research Grants, Member of Brain Disorders and Clinical Neuroscience
2002-  National Institutes of Health, Division of Research Grants, Member of Molecular, Cellular and Developmental Neuroscience

MONETTE Johanne

2000-2001  (FRSQ) Internal reviewer for the Programme pour les intervenants de 1ère ligne.

MORAIS José
1994 - Member of Réseau provincial de recherche Géronto-Gériatrie, Nutrition Axis - FRSQ. Eighteen hours/year

1999- Member of Réseau provincial de recherche en santé bucco-dentaire - FRSQ.

2001 Canadian Institutes of Health Research (CIHR) *ad hoc* member of the Metabolism and Nutrition Committee. May 30- June 1, 2001.

2001 Executive Committee of the FRSQ Réseau provincial de recherche Géronto-Gériatrie. Four periods of three hours/year.

1999 - Member of the Examination Jury for the Certificate of Specialist in Geriatric Medicine, Collège des médecins du Québec, April 3-4, 2001, September 6-7, 2001.

**NAZERALI Najmi**

Member of the McGill Geriatric Interdisciplinary Rounds Organizing Committee. Organization of Symposium The Long Road Home: Facilitating the Transition from the Hospital to the Community, June 16, 2000.

Member of the McGill Geriatric Interdisciplinary Rounds Organizing Committee. Organization of Symposium The Long Road Home: Facilitating the Transition from the Hospital to the Community, June 16, 2000.

Education/ Training Committee of Division of Geriatrics, McGill University.

ICMB Site Coordinators Committee
Family Medicine PostGraduate Education Committee

Health Care of Elderly Sub-Committee, McGill Department of Family Medicine

Member of Scientific/Organizing Committee for the 50th Annual Family Medicine Refresher Course, McGill University

Division of Geriatric Interdisciplinary Rounds Organizing Committee

RVH Long Term Care Committee

Member of scientific and organizational committee of the McGill Annual Family Medicine Refresher Course.

Peer reviewer for Canadian Family Physician.

Peer reviewer for Canadian Journal of Aging.

Member of scientific and organizational committee of the McGill Annual Family Medicine Refresher Course.

SCHIPPER Hyman

Health Sciences Library Advisory Committee 1993-present

Editorial Board: Journal of Neurochemistry 1998-present

Appointment, Promotion and Tenure Committee, Dept. of Neurology and Neurosurgery 2001-

Canadian Institutes of Health Research (3 proposals)
Natural Sciences and Engineering Research Council of Canada
National Institutes of Health

Lady Davis Institute Expansion Committee (Jewish General Hospital) 2001

Organizing Committee, Conference on "Redox-active Metals and the CNS", New York Academy of Sciences 2001

Submitted report to Brown University School of Medicine (Dr. A. Kane) 2002
in support of a candidate's promotion of Full Professor of Neuropathology

**TANNENBAUM Cara**

External Journal Review Boards  
2001 - Journal of Women’s Health and Gender Based Medicine

**TOUSIGNANT Pierre**

Chair, Community Health Planning, Joint Departments of Epidemiology and Biostatistics and Occupational Health, McGill University.

Member, Curriculum committee, Joint Departments of Epidemiology and Biostatistics and Occupational Health, McGill University.

Chair, MSc non-thesis examination committee, Joint Departments of Epidemiology and Biostatistics and Occupational Health, McGill University.

Examiner, Community Medicine, College of physicians of Québec.

**VAITEKUNAS Susan**

JGH Medical Records Committee

Organize monthly division of geriatrics journal club

Co-course director “Geriatric Medicine for Practitioners” (McGill CME) March 21 & 22, 2002

**WINDHOLZ Sylvia**

National:

1997-present Health Care for the Elderly Committee (Quebec Representative) College of Family Physicians of Canada.

1996-present Peer reviewer for the Canadian Family Physician Journal
2002-present Editorial Board member and peer reviewer for Geriatrics Today: Journal of the Canadian Geriatrics Society

**Provincial:**

2001-present President, Société Québécoise de Gériatrie.

1997-present Member, Executive Committee, Société Québécoise de Gériatrie.

2001-2002 President, Scientific Committee and Organizing Committee for the XVIIè Congrès Scientifique Annuel de la Société Québécoise de Gériatrie

2001-present Comité Gériatrie et Soutien au Réseau, Ministère de la Santé et des Services Sociaux

GRADUATE STUDENTS AND POSTDOCTORAL FELLOWS

2001 - 2002

DIVISION OF GERIATRIC MEDICINE

McGILL UNIVERSITY

Division members

Cross appointed members

Adjunct members
TEACHING ACTIVITIES

BACHER Yves

ICMB Supervisor
2001  ICMB - Teaching students, Royal Victoria Hospital & Montreal General Hospital
2001  Lecture on “Dementia”: All Junior Residents 1x a month, Royal Victoria Hospital
2001  Lecture on “Dementia” Geriatric & Internal Medicine Residents (RVH & MGH)

CME
2001  Geriatric CME McGill: Treatment of Alzheimer’s dementia & workshop on Drugs
2001  Troubles neurocognitifs en démence: CLSC Villeray
2001  Démence en soins de longue durée: Centre Soins Prolongé Mont-Royal

BÉLAND François

Graduate Students and Postdoctoral Fellows
2000– Claude Galand (codirection) Ph.D. Santé publique (Titre à venir)

Courses

BERGMAN Howard

McGill Courses:
Undergraduates
1996–present  Small group teaching and bedside teaching ICMB medical students

Postgraduates
1984–present  Regular small group teaching at the Jewish General Hospital to Family Medicine and Medical residents as well as to Geriatric specialty fellows.
1999-present  Co-thesis director, Lisa Martelli, Ph.D. student, Université de Marseille.

CHERTKOW Howard

Graduate Students

1998-2001  Dion Fung, M.D./Ph.D. program, Dept. of Medicine, McGill University (supervisor).
2000-2001  Heather Pim, M.A. Student, Dept. of Neurosciences, McGill University (co-supervisor).
2000  Elise Levinoff, M.A. Student, Dept. of Neurosciences, McGill University (supervisor).

Postdoctoral Fellows

1998-  Christine Whatmough, Ph.D., Psychology (Université de Montréal)
2001-  Daniel Saumier, Ph.D. Psychology (Université de Montréal)

DUQUE Gustavo

McGill University (Montreal, Canada)

Undergraduate

1998-present  Tutor, small group sessions, Division of Endocrinology, Department of Medicine
1999-present  Tutor, small group sessions and bedside teaching. Division of Geriatric Medicine, Department of Medicine.
1997-present  Seminars on aging, aging bone. Faculty of Graduate studies and Research, Division of Experimental Medicine
1999-present  Back to basics: bone metabolism. Seminars for last year medical students
2000-present  Physiology of bone. Graduate students.
2000-present  Associate Director, undergraduate medical students. Division of Geriatric Medicine.
2001-present  Teaching Scholar- Faculty Development, McGill University
2002- Present Macy Scholar in Medical Education – Harvard University, Boston, MA.

LEBLANC Andrea

Graduate Students and Postdoctoral Fellows

Younes Bounhar, M.Sc. student May 1999-
Yan Zhang Ph.D. student September 1999-
Omar Tounekki, Post-doctoral fellow October 2000-
Emily Vereker, Post-Doctoral fellow, May 2001-
Huishan Guo, Ph.D. student, October 2001-
David Ruffieux, Ph.D. student, October 2001-
Course Taught (including CME at McGill)

1996-present Course Co-Coordinator with Dr. Phil Barker 531-602A Current Topics in Neurosciences.

1998- present: Lecture in Viral Pathogenesis and Host Defense 528-466B. Course Coordinator: John Hiscott. 2 hour lecture and 12 hours correction of papers/exams.

MONETTE Johanne

ICMB - teaching students

2000-2002 Thesis committee member for Gillian Bartlett, candidate for a PhD degree in Epidemiology and Biostatistics, McGill University. “Use of benzodiazepine and risk of injuries”.

2001 Thesis committee member for Nadine Larente, MD, candidate for a PhD in Ethics, Université de Montréal, “Informed consent regarding resuscitation orders and other types of advance directives. Realisation of an educational to best inform the elderly population and their families on the salient issues related to advance directives”. 
MORAIS Jose

Graduate Students and Postdoctoral Fellows

Thesis Supervisor of Manal SUBKI a Master’s degree student. Thesis Project: Assessment of the nutritional status of frail elderly persons participating in the Geriatric Day Hospital Rehabilitation Program. School of Dietetics and Human Nutrition, McDonald Campus, McGill University: Year of degree 2002.

Course Taught (including CME at McGill)

Continuing Medical Education, Geriatric Medicine for Practitioners. Hotel Delta Centre-Ville, Montréal, Québec. Workshop on Anorexia and approach to nutritional deficits. 3hrs. March 21, 2002.

NAZERALI Najmi

Program Director, Health Care of Elderly Fellowship Program, Department of Family Medicine, McGill University.

Teaching Fellows in Health Care of Elderly Training Program

ICMB Teaching
SCHIPPER Hyman

1988-present Neurology Ward and Consultation Service. Training of residents in Neurology, Internal Medicine and Psychiatry (2 months/year)

1989-present Problem Based Instructions in Clinical Neurology (thrice yearly) to LINK Medical Students, McGill University

2001 External Examiner of Ph.D. Thesis, Faculty of Graduate Studies, University of British Columbia (Candidate: Jacqueline Tiong)

Oral examiner on Ph.D. Thesis Defense, Dept. of Medicine (Division of Experimental Medicine), McGill University (Candidate: Louis-Bruno Ruest)

2002 Graduate Student Advisory Committee, Dept. of Neurology & Neurosurgery, McGill University (Candidate: Katherine Neufield)

**Continuing Medical Education (CME)**

TANNENBAUM Cara

McGill University Professional Development. 52nd Annual Refresher Course for Family Physicians. *Incontinence: Interpretation and Management.* Montreal, Canada.

TOUSIGNANT Pierre

Course instructor in Epidemiology and Biostatistics: "An introduction to population health data", 30 hours/year.

Co-teacher in course “Principles of Study Design and Analysis” (5 hours)
VAITEKUNAS Susan

ICMB tutor (geriatrics) May 14-18, 2001

Clinical supervision family medicine and internal medicine residents during geriatrics rotation

Core teaching internal medicine & family medicine residents on falls

WINDHOLZ Sylvia

1996-present Associate Program Director of the Health Care for the Elderly Fellowship Program.

2002-present Coordinator for the Geriatric Rotation for Family Medicine Residents (Herzl FMU, SMBD Jewish General Hospital and CLSC Côte des Neiges)

2001-present International: Invited professor. SYSTED –Escuela Internacional de Gerontologia, Spain

Teaching to medical students, family medicine residents, internal medicine residents and geriatric fellows rotating through the Division of Geriatric Medicine

Workshop for the 3rd year Occupational Therapy students. School of Physical and Occupational Therapy, McGill University, March 14th, 2002

WOLFSON Christina

Department of Epidemiology and Biostatistics

2001-2002 Instructor. Course #513-695B. Principles of Study Design and Analysis II. 3 credits. (39 hours)

WOOD DAUPHINEE Sharon

Measurement in Rehabilitation 582-630B. Course coordinator, marking, preparation of course pack

Selected Topics in Rehabilitation 582-614A. Marked assignments (25% of course)

TITLE:
Perspectives a l’égard de l’organisation des services aux personnes âgées
June 4th, 2002
Louise Hudon, Director of Rehabilitation Services
Catherine Booth hospital

TITLE: Cardiac Rehabilitation
APPENDIX XI

CME PROGRAM IN GERIATRIC MEDICINE

2001 - 2002

DIVISION OF GERIATRIC MEDICINE

McGILL UNIVERSITY

Division members

Cross appointed members

Adjunct members
Thursday, March 21, 2002

08:00 - 08:30  Registration (Continental Breakfast)
               Hotel Delta Centre-Ville
               777, rue University, Montreal
               Meeting Room: Auditorium

Aging Brain
Moderator: Paul Lysy
08:35 - 09:25  Depression – François Primeau
               - Rudy Friedman
09:25 - 10:15  Neurobehavioural Disorders
               - Howard Bergeman
10:15 - 10:35  Coffee and Exhibits

10:35 - 11:25  MCI/Early Dementia: Diagnosis
               - Howard Bergeman
11:25 - 12:15  Dementia: Treatment – Serge Gauthier

12:15 - 13:30  Lunch (Hotel Delta Centre-Ville)

13:30 - 14:30  Workshop – Session A
14:35 - 15:35  Workshop – Session B
15:40 - 16:40  Workshop – Session C

Workshop Sessions A B C (1 - 7)
Each workshop will be run a maximum of three times
based on demand. Participants are to choose three
workshops and one alternate.

1. Predicting Drug Interactions – Louise Mallet
2. Using Anti-Dementia Drugs – Yves Fischer
3. Loss of Vision – Darvin Albert
4. Anorexia and Nutritional Deficit – José Morais
5. Skin Care – Jean Chambers
6. Falls – Susan Vadeboncoeur
7. Parkinson's Disease Management – Michel Aubin

Friday, March 22, 2002

08:00 - 08:30 (Continental Breakfast)

Aging Body
Moderator: Paul Lysy
08:35 - 09:25  The Aging Heart – Wendy Chu
09:25 - 10:15  The Aging GI Tract – Serge Mayrand
10:15 - 10:35  Coffee and Exhibits

10:35 - 11:25  The Aging Immune System
               - Mark Miller
11:25 - 12:15  The Aging Urinary Tract
               - Jacques Cercos
12:15 - 13:30  Lunch (Hotel Delta Centre-Ville)

13:30 - 14:30  Workshop – Session D
14:35 - 15:35  Workshop – Session E
15:40 - 16:40  Workshop – Session F

Workshop Sessions D E F (8 - 13)
Each workshop will be run a maximum of three times
based on demand. Participants are to choose three
workshops and one alternate.

8. Ethics Topics – Naosie Laverte
9. Home Care – Shuk Fung
10. Internal Medicine Topics – Robert Bailey
11. Dysphagia – JGH Speech Pathology
12. Diabetes – Tina Kader
13. Care of the Dying – Sylvia Windholz

CREDITS

This event is approved for up to 13 Credits by the Centre for Continuing Medical Education. The Centre for CME, Faculty of Medicine, McGill University is fully accredited by the Committee on Accreditation of Canadian Medical Schools (CACMS) as well as the Accreditation Council for Continuing Medical Education (ACCME) of the United States, to sponsor continuing medical education for physicians. This program meets the accreditation criteria of the College of Family Physicians of Canada for MAINPRO-M1 credits. Members of the American Academy of Family Physicians are eligible to receive credit hours for attendance at this meeting due to reciprocal agreement with the College of Family Physicians of Canada. The Centre for CME, Faculty of Medicine, McGill University designates this activity for Category 1 credit towards the AMA Physicians Recognition Award up to the maximum number of credit hours noted below. Each physician should claim only those hours of credit that he/she actually spent at the educational activity.

CREDITS

Le Centre d'éducation médicale continue de l'Université McGill est pleinement agréé par l'Association des facultés de médecine du Canada (ACME) et par le Conseil canadien en éducation médicale continue (CAACME). Pour les médecins omnipraticiens, le Centre accorde ces activités conformes aux normes du Collège des Médecins de famille du Canada (CMFC) pour les crédits MAINPRO-M1. Le Centre reconnaît à la présente activité 13 heures de crédits d'études de catégorie 1 pour l'omnipraticien présent.
