5.0 Rationale for revised program

The current version of the logic requirement is more demanding than most of the best analytic philosophy departments in North America. The proposed change in the programme brings it into line with these other departments by providing the necessary grounding in logic and offering the option of a more advanced requirement for those students whose research plans require it. This was favourably noted in the 2013 Cyclical Review Report of the Department.

7.0 Proposed Program (Gender and Women's Studies Option)

CC-13-6

Program Requirements

The graduate option in Gender and Women's Studies is an interdisciplinary program for students who meet the degree requirements in Philosophy who wish to earn 9 additional credits of approved coursework focusing on gender and women's studies, and issues in feminist research and methods. The student's doctoral thesis must be on a topic centrally relating to issues of gender and/or women's studies.

Thesis

A thesis for the doctoral degree must constitute original scholarship and must be a distinct contribution to knowledge. It must show familiarity with previous work in the field and must demonstrate ability to plan and carry out research, organize results, and defend the approach and conclusions in a scholarly manner. The research presented must meet current standards of the discipline; as well, the thesis must clearly demonstrate how the research advances knowledge in the field. Finally, the thesis must be written in compliance with norms for academic and scholarly expression and for publication in the public domain.

and/or any other course at the 500, 600, or 700 level in Metaphysics and Epistemology recommended/accepted by the student's advisory committee. Depending on the topics covered, [PHIL 607](#) and [PHIL 682](#) may count toward the area requirements.

One additional course selected from the list of Women's Studies graduate course offerings (below), or other graduate option-approved courses from participating departments.

- [WMST 501 Advanced Topics 1 \(3 credits\)](#)
- [WMST 513 Gender, Race and Science \(3 credits\)](#)

The remaining course(s) must be at the 500, 600, or 700 level and are to be chosen in consultation with the student's advisory committee.

Language Requirement

One research language at the advanced level or two research languages at the intermediate level.

Logic Requirement

The Logic requirement is satisfied in one of two ways:

A) By the end of December of the first year, the student sits an examination, equivalent to the final examination of PHIL 210 and passes it with a grade of B+ or better. A student who does

not achieve a satisfactory grade will sit a supplementary examination to be held before the end of May of the first year. The examination is graded on the same scale as that applied to undergraduate students in PHIL 210.

B) The student passes a logic course more difficult than PHIL 210 (eg. PHIL 310) with a grade of B+ or higher before the end of the first year of the program.

A student failing to satisfy the logic requirement will be asked to withdraw from the programme by the Graduate Director.
