

# HEALTHY BRAINS FOR **HEALTHY LIVES**

The HBHL Trainee Committee invites you to the  
**Monthly HBHL Trainee Get-Together**

Presentations by an invited guest speaker and HBHL trainees  
with complimentary food and drinks! Register [here](#).

**When:** Tuesday, March 13<sup>th</sup>, 2018, 6PM to 8PM

**Where:** Thomson House Ballroom,  
3650 Rue McTavish, Montreal, QC

## Keynote Speaker: Dr. Robert Zatorre

Dr. Robert Zatorre is a cognitive neuroscientist at the Montreal Neurological Institute of McGill University and a professor in the Department of Psychology. His principal interests relate to the neural substrate for auditory cognition, with special emphasis on two complex and characteristically human abilities: speech and music. His current research falls under the HBHL pillar of Applied Cognitive Neuroscience of Brain Plasticity.

## Trainee Presenters

**Tyler Cannon**, HBHL MSc Fellow  
Supervisor: Dr. Samantha Gruenheid  
Mechanistic Models of Neurodegenerative Disorders

**Isabella Straub**, HBHL PhD Fellow  
Supervisor: Dr. Eric A. Shoubridge  
Mechanistic Models of Neurodegenerative Disorders
