International Conference on Air Transport, Air Law and Regulation

Jointly organised by The McGill University Institute of Air & Space Law, The National University of Singapore Centre for International Law and The Singapore Aviation Academy.

24 – 26 May 2010
Singapore Aviation Academy
OBJECTIVES

This Conference aims to address critical issues facing civil aviation in current challenging times with an emphasis on Asian air transportation. Current and new updates on legal and policy issues relevant to today’s air transportation environment will be addressed.

OUTLINE

Airline Industry: Is It Emerging from the Financial Crisis?
- Economic performance of the airline industry in a deregulated environment
- Sustainable survival strategies
- Economic theories in a challenged financial environment
- How will the industry finance a new generation of aircraft?

Prof Dr Paul Stephen Dempsey
Director, Institute of Air and Space Law, McGill University, Canada

Aviation Security: Are We Adequately Prepared for Another 9/11 Attempt?
- Annex 17 and ICAO Compliance Audits
- Airline, airport and governmental efforts to protect aviation security
- Regulatory challenges and state compliance with SARPs
- Forthcoming diplomatic conference on addressing new terrorism risks

Prof Dr Ludwig Weber
Adjunct Professor, McGill University, Canada, and Consultant, ICAO
Rachel Pachoud
Wings Club Fellow, McGill University, Canada

Aviation Safety: ICAO Audits and National “Blacklisting”
- US and EU blacklists
- ICAO Safety Audits of State compliance with SARPs
- Economic impact and legality of unilateral blacklisting of airlines

Prof Dr Paul Stephen Dempsey
Director, Institute of Air and Space Law, McGill University, Canada

Air Traffic Management: Safety, Efficiency and Corporatisation
- ATC – challenges and opportunities
- Financing of advanced air navigation technology
- Need of a framework to govern CNS/ATM systems
- Costs and benefits of ATC corporatisation and/or privatisation
- Impact of corporatisation in terms of safety, efficiency and cost
- Impact of criminalisation of safety occurrences on safety
- Will functional airspace blocks help integrate a Single European Sky?

Stefan A Kaiser
Head of Legal Office, NATO AWACS Operations, Germany
Prof Dr Francis Schubert
Adjunct Professor, McGill University, Canada, and Corporate Secretary, Skyguide, Switzerland

Environmental Regulation: ICAO Standards, Unilateral Emissions Trading or Taxing Schemes?
- Environmental impacts of air transport: noise and emissions
- Environmental concerns over airport development and aircraft operations, as well as aircraft and engine design
- Government regulations and their impact on airport planning, development and operations

Mark Glynn
Dobson Scholar, McGill University, Canada
Yaw Nyampong
Editor, Annals of Air and Space Law, McGill University, Canada

Aviation Liability and Insurance: Is the Sky the Limit for Damages?
- Liability for ANSPs and aircraft manufacturers
- Interpretation and application of the Montreal Convention of 1999
- Which Asian States have ratified which liability regime: Warsaw and its progeny, or Montreal 99?
- Differences in carrier liability for passengers and cargo
- Compensation by aircraft manufacturers to carriers for delivery delays
- How will the rules change for surface damage with the new draft Conventions on modernisation of the Rome Convention and carrier liability for acts of unlawful interference?

Kevin Bartlett
Partner, Cooper Grace Ward, Australia
Lee Jae Woon
Assistant Manager, Legal Affairs Department, Korean Air
Peng Lim
Partner, Clyde & Co, Singapore
Urban Olson
Partner, Advokatfirman Urban Olson, Sweden
Tan Siew Huay
Director (Legal), Civil Aviation Authority of Singapore

Air Cargo Liability
- Limits of liability and burdens of proof in the Warsaw, Montreal Protocol No 4 and Montreal Convention Regimes
- The role of insurance in paying and settling claims

Prof Dr Wolf Müller-Rostin
Consultant, Germany
Mickey Shan
Legal Specialist, China Airlines

Mark Glynn
Dobson Scholar, McGill University, Canada
Yaw Nyampong
