

# FOUNDATIONS OF PUBLIC POLICY EXPERIMENTS

## Lessons from Basic Income Pilots

11-12 November, 2019

McGill Institute for Health and Social Policy  
McGill University, Montréal

McGill Institute for the Study of Canada  
L'Institut d'études canadiennes de McGill

This workshop brings together experts in basic income, along with scholars in the fields of philosophy, social sciences, policy analysis, epidemiology and health sciences, to discuss the challenges and opportunities presented by public policy experiments. The workshop will focus on the nature of policy experiments and the evidence they generate; best practices for policy experiments; and the manner in which experiments and experimental evidence are integrated into the policy process to inform basic income policy development.

### PARTICIPANTS

Salla Atkins, Tampere University  
Daniel Béland, McGill University  
Yv Bonnier Viger, Université Laval  
Valery Carter, University of Maine  
Jurgen De Wispelaere, University of Bath/UBIEXP  
Peter Dietsch, Université de Montréal  
Evelyn Forget, University of Manitoba  
Sam Harper, McGill University  
Iwao Hirose, McGill University  
Michael Howard, University of Maine/USBIG  
Nicholas King, McGill University  
Douglas MacKay, University of North Carolina.  
Dominic Martin, UQAM  
James Mulvale, University of Manitoba/BICN  
Arijit Nandi, McGill University.  
Isabel Provencher, Université de Laval  
Daniel Weinstock, McGill University

This workshop is organised as part of the UBIEXP research project on the philosophical foundations of basic income experiments (Portuguese Foundation for Science and Technology: PTDC/FER-FIL/28078/2017. ref. POCI) in collaboration with the McGill Institute for Health and Social Policy (IHSP) and the McGill Institute for the Study of Canada (MISC).
