## **Airbnb FREQUENTLY ASKED QUESTIONS**

**For more information and other questions:** <https://www.airbnb.ca/help>

### **Pricing and fees:**

#### **How is the price determined for my reservation?**

The total price of a reservation on Airbnb is based on a few factors. Note that the price is charged in full once a host accepts your reservation request (or if you use Instant Book).

Costs determined by the host:

- **Nightly price:** Nightly rate decided by the host
- **Cleaning fee:** One-time fee charged by some hosts to cover the cost of cleaning their space
- **Extra guest fees:** One-time fee charged by some hosts to cover other costs related to using their space

Costs determined by Airbnb:

- **Airbnb service fee:** Guest service fee charged for all reservations to help Airbnb run smoothly and offer 24/7 customer support

Other costs that may be included:

- **Currency exchange fee**
- **Value Added Tax (VAT):** Tax charged to guests who live in the European Union, Switzerland, Norway, Iceland, South Africa, and Japan (charged as JCT).
- **Local taxes:** Any taxes charged based on the location of the host's listing

**Note:** Security deposits are only charged if the host needs to make a claim.

### **Reservations:**

#### **How do I book a place on Airbnb?**

When you book a place on Airbnb, you're making arrangements to stay in someone's home. Each host has their own style of hospitality, starting with how they like to get to know their guests. Some hosts want to approve reservations, while others are comfortable letting you book their place instantly without waiting for approval.

##### ***1. Complete Your Profile***

In either case, it's important to know that Airbnb is a community that relies on trust. Complete your profile before you request a reservation with a host, so they can know a little bit about you when they confirm. Your profile should include photos and verifications, especially because some hosts require guests to have a [profile photo](#) or [Verified ID](#) in order to book.

##### ***2. Find the Right Place***

With over 800,000 unique listings around the world, you'll want to make sure the place you choose has everything you need for a comfortable and memorable trip. When [searching for a place](#), make sure to include your dates and number of guests to get the most accurate pricing. Read reviews, descriptions, house rules, and amenities for each place to see if it's the right fit for your trip. You can always [contact the host](#) if you have any questions about their home.

### **3. Book It!**

You've found the perfect place, and now it's time to make it official. This is where the host's preferred way of booking will determine how you'll confirm your reservation.

#### **Instant Book**

For hosts who don't want to approve each reservation, you'll see a button on their listing that says **Instant Book**. Like the name suggests, you can confirm a reservation at these places right away. Learn more about [Instant Book](#).

#### **Request to Book**

Many hosts prefer to approve reservations before they're final. In this case, you'll see a button on their listing that says **Request to Book**. To submit a reservation request, you'll need to enter your payment details. Hosts have 24 hours to accept your request, and your reservation is automatically confirmed once they do. Learn more about [submitting a reservation request](#).

#### **Pre-approvals and Special Offers**

If you decide to contact the host to ask questions before attempting to book, the host may respond to your message by inviting you to make a reservation with either a pre-approval or Special Offer. A pre-approval is an invitation to finish booking for the dates and number of guests you noted in your message. A Special Offer gives the host the opportunity to provide special pricing, dates, and other reservation details before you book. Learn more about [booking a pre-approval or Special Offer](#).
