An overview of your group insurance plan

A group health insurance plan for International students has been made. We are pleased to present your Medavie Blue Cross booklet outlining the coverage you and your dependent(s) are entitled to.

The Emergency Medical Care Benefits, Basic Health Benefits, Supplementary Health Benefits are explained, as well as Accidental Dismemberment and Repatriation. You will find guidelines that will help you claim expenses covered by your Insurance Plan. Additional details on the scope of your coverage are also provided.

Your booklet contains valuable information and should answer most of your questions. We encourage you to read it carefully and to keep it handy for future reference. Remember to carry your insurance certificate with you at all times.

Should you need additional information, please contact the Blue Cross Customer Service at 1 888 588-1212.

This booklet is based on the official texts of the insurance contract governing the Plan. These texts set forth the detailed provisions of the program and take precedence in the event of any conflict with this document.

Finally, please note that the masculine gender has been used indiscriminately throughout this document in order to facilitate its reading.

Definitions

Accident means a sudden, fortuitous and unforeseeable event, resulting directly and independently of any other cause, in bodily injuries certified by a physician and due exclusively to an external cause violent in nature and unintended by the Insured.

Active care means preventive care, medical diagnosis and treatment (including surgery) provided for acute illnesses. It does not include convalescent care and physical or mental rehabilitation.

Contract year means each academic year for the period going from September 1 to August 31 of the next year.

Dependent means the spouse or child who accompanies and resides with you in the country of the «study away program outside Canada» and who meets the following definition.

a) spouse

person, of opposite sex or same sex, who is:

- legally married to you, or
- designated by you on your application and, with whom you have been living on a permanent basis for at least one year (this period does not apply if a child is born of such union).

At any given time, only one person may be insured as your spouse.

b) dependent child(ren)

unmarried financially dependent child(ren), under 18 years of age.

Expenses incurred following an emergency situation means immediate medical care obtained by the Insured upon the occurrence of a sudden and unforeseeable medical condition which, in the absence of such care, can cause death or severe deficiencies.

To be considered a medical emergency, the illness must necessitate an immediate medical intervention, such as acute appendicitis, asthma attack, kidney stones, cerebrovascular accident, poisoning or convulsions. A medical emergency exists if the following conditions are met:

- symptoms must be sufficiently severe for a reasonable person to call for medical assistance at any time of day or night;
- symptoms must be sudden and unexpected – a chronic condition with moderately acute symptoms which have existed for some time, is not considered a medical emergency. However, if these symptoms suddenly worsen and require immediate medical attention, this condition may qualify;
- immediate care is provided – a medical emergency does not exist if medical care is not obtained as soon as symptoms appear. A telephone call to a physician does not constitute immediate care.

Health professional means any health care practitioner mentioned in the contract, who is a duly registered member of his occupational guild and practices within the limits of his authority, as established by the law.

Hospital means a facility licensed as an accredited hospital and offering care and treatments to either inpatients or outpatients. A Registered graduate Nurse (R.N.) must always be on duty, and the hospital must have a laboratory and an operating room where surgical procedures are performed by a legally qualified surgeon. The term "hospital" will on no account mean a facility or part of an accredited facility used primarily as a clinic, extended care facility or part of an extended care facility, rest home, health spa or detoxification centre for drug addicts or alcoholics.

Hospitalization means admission and stay in a Hospital as an in-patient. Day surgery is not considered as a hospitalisation.

Illness (or sickness) means a health deterioration or bodily disorder diagnosed by a physician and which requires regular, continuous and curative care. Such medical care must be considered satisfactory to the Insurer.

Insured means you and any of your dependent(s) insured under this insurance plan.

Insurer means **Medavie Inc.** and **Blue Cross Life Insurance Company of Canada.**

Medical event means a medical treatment or hospitalization which began while the contract is in force. A medical event includes urgent and non-urgent care. If a medical condition necessitates a series of separate treatments and hospitalizations, each treatment or hospitalization will be considered as a distinct event except if

- these treatments or hospitalizations arise from the same immediate medical cause, and
- less than 10 days have elapsed between the end of the medical treatment or hospitalization and the start of the treatment or hospitalization which directly follows.

Physician means a member of the medical profession who is licensed to practice medicine under the laws of the jurisdiction in which he practices. This person must not be a relative of the Insured, nor reside with him.

Pre-existing condition means a medical condition for which the Insured has consulted a physician, been treated by a physician or been prescribed medication during the three-month period preceding the effective date of insurance. For insurance purposes, such a condition will cease to be considered a pre-existing condition on the date the Insured has completed a period of 12 consecutive months following the effective date of insurance without any physician consultation, medical treatment or drug prescription for this condition.

Even if you or your dependent(s) have not consulted a physician during the three-month period preceding your arrival in Canada, the medical condition is considered as a pre-existing condition by the Insurer if the state of health shows obviously that the condition existed at the time of arrival in Canada. Moreover, is also considered a pre-existing condition, any state of condition for which symptoms have been ignored or for which a medical advice has not been followed, or for which recommended investigation treatment, examination or intervention have not been done. The pre-existing condition applies in all cases of congenital disease, whether or not diagnosed.

The pre-existing condition will not apply if this plan replaces a similar coverage that you had with a group insurance plan offered by a recognized Canadian educational institution, for a period of 12 consecutive months immediately prior to the present coverage.

Reasonable and customary means the charges which are usually made in absence of this or any similar coverage, for a specific type or care, service or supply, based on representative fees and prices in a geographic area in which the charges were incurred, as evaluated by the Insurer.

Study away program outside Canada means study abroad and exchange programs, internships and field study programs in a country other than Canada or your country of origin.

Trip outside the boundaries of the country of the «study away program outside Canada» means the occasional absence from one's residence in the country of the «study away program outside Canada» for the purpose of a vacation or leisure.

The student and his dependent(s) are covered for the following diagnostic tests:

Maternity benefits also include:

- Therapeutic abortion prescribed by a physician and an intentional termination of a pregnancy before the fetus can live independently (which is currently defined as a maximum of 24 weeks of pregnancy) performed by a physician¹.

The above benefit is subject to the lesser of the amount provided in the current Provincial Schedule of Fees of the *Régie de l'assurance maladie du Québec (RAMQ)*, or \$500.

¹ Should there be complications of such abortions requiring hospital confinement, hospitalization charges shall be deemed eligible as described in the provisions of item 1. **Hospital** of the **Basic Health Benefits** in this section.

Limitations:

Barring complications, the following limitations apply:

- 12 medical examinations per pregnancy
- 3 ultrasounds per pregnancy

Maternity benefits extend to you and your spouse if you re-register and were already covered under the Insurance Plan for McGill University International Students, or if you or your spouse were previously insured by a similar benefit from a group insurance plan offered by a recognized Canadian educational institution during the previous academic year.

If you or your spouse were not insured during the previous academic year, maternity benefits are not insured if normal delivery takes place during the first 30 weeks following initial registration in the plan. This exclusion does not apply in case of a miscarriage or early delivery, as long as conception occurred during the first 6 weeks immediately prior or subsequent to registration.

You have 30 days from the date of birth of your child to change your coverage according to your new situation (a pro-rata premium adjustment will apply):

- other dental coverage is restricted to hospitalization while confined as an in-patient - but not as an out-patient - as required for surgical extraction of a tooth and/or care dispensed to complement treatment of the dental condition which necessitated such hospitalization (i.e. impacted wisdom tooth) based on treatment recognized by the Régie de l'assurance maladie du Québec and the Hospital Insurance Act, subject to a maximum reimbursement of \$1,000 per Insured, per contract year, for all services combined.

G) Medical evacuation to the country of origin

In the event that you or one of your dependent(s) are diagnosed as terminally ill, or if the diagnosis indicates that the medical condition will prevent you from attending courses for a long period (e.g. long term hospitalization). However, medical leave granted by McGill University does not necessarily justify a medical evacuation to Canada or to the country of origin. Medical evacuation is subject to the approval of the attending physician and the Insurer's medical consultant.

The benefit covers charges for medical evacuation to Canada or to your country of origin (or your dependent's country of origin, if different from yours) by means of appropriate transportation, subject to a \$10,000 maximum.
