

IPN New Student Orientation
September 4th, 2025

What do people want to ask a neuroscientist?

Now you can be part of a team of neuroscientists who help people find their answers!

Why do smells
trigger
nostalgia?

Comment
fonctionnent
les cycles de
sommeil?

How does the brain
understand and speak
different languages?

Quelles sont les
périodes critiques du
développement
intellectuel chez
l'homme?

About us

Bilingual Neuroscience Information Service

Goals:

- Strengthen communication between scientists and the community
- Combat misinformation

What we do...

For the public

We connect the community to experts in neuroscience

Provide tailored, accurate information and fact-checked resources

We make science more accessible

What we do...

For IPN students

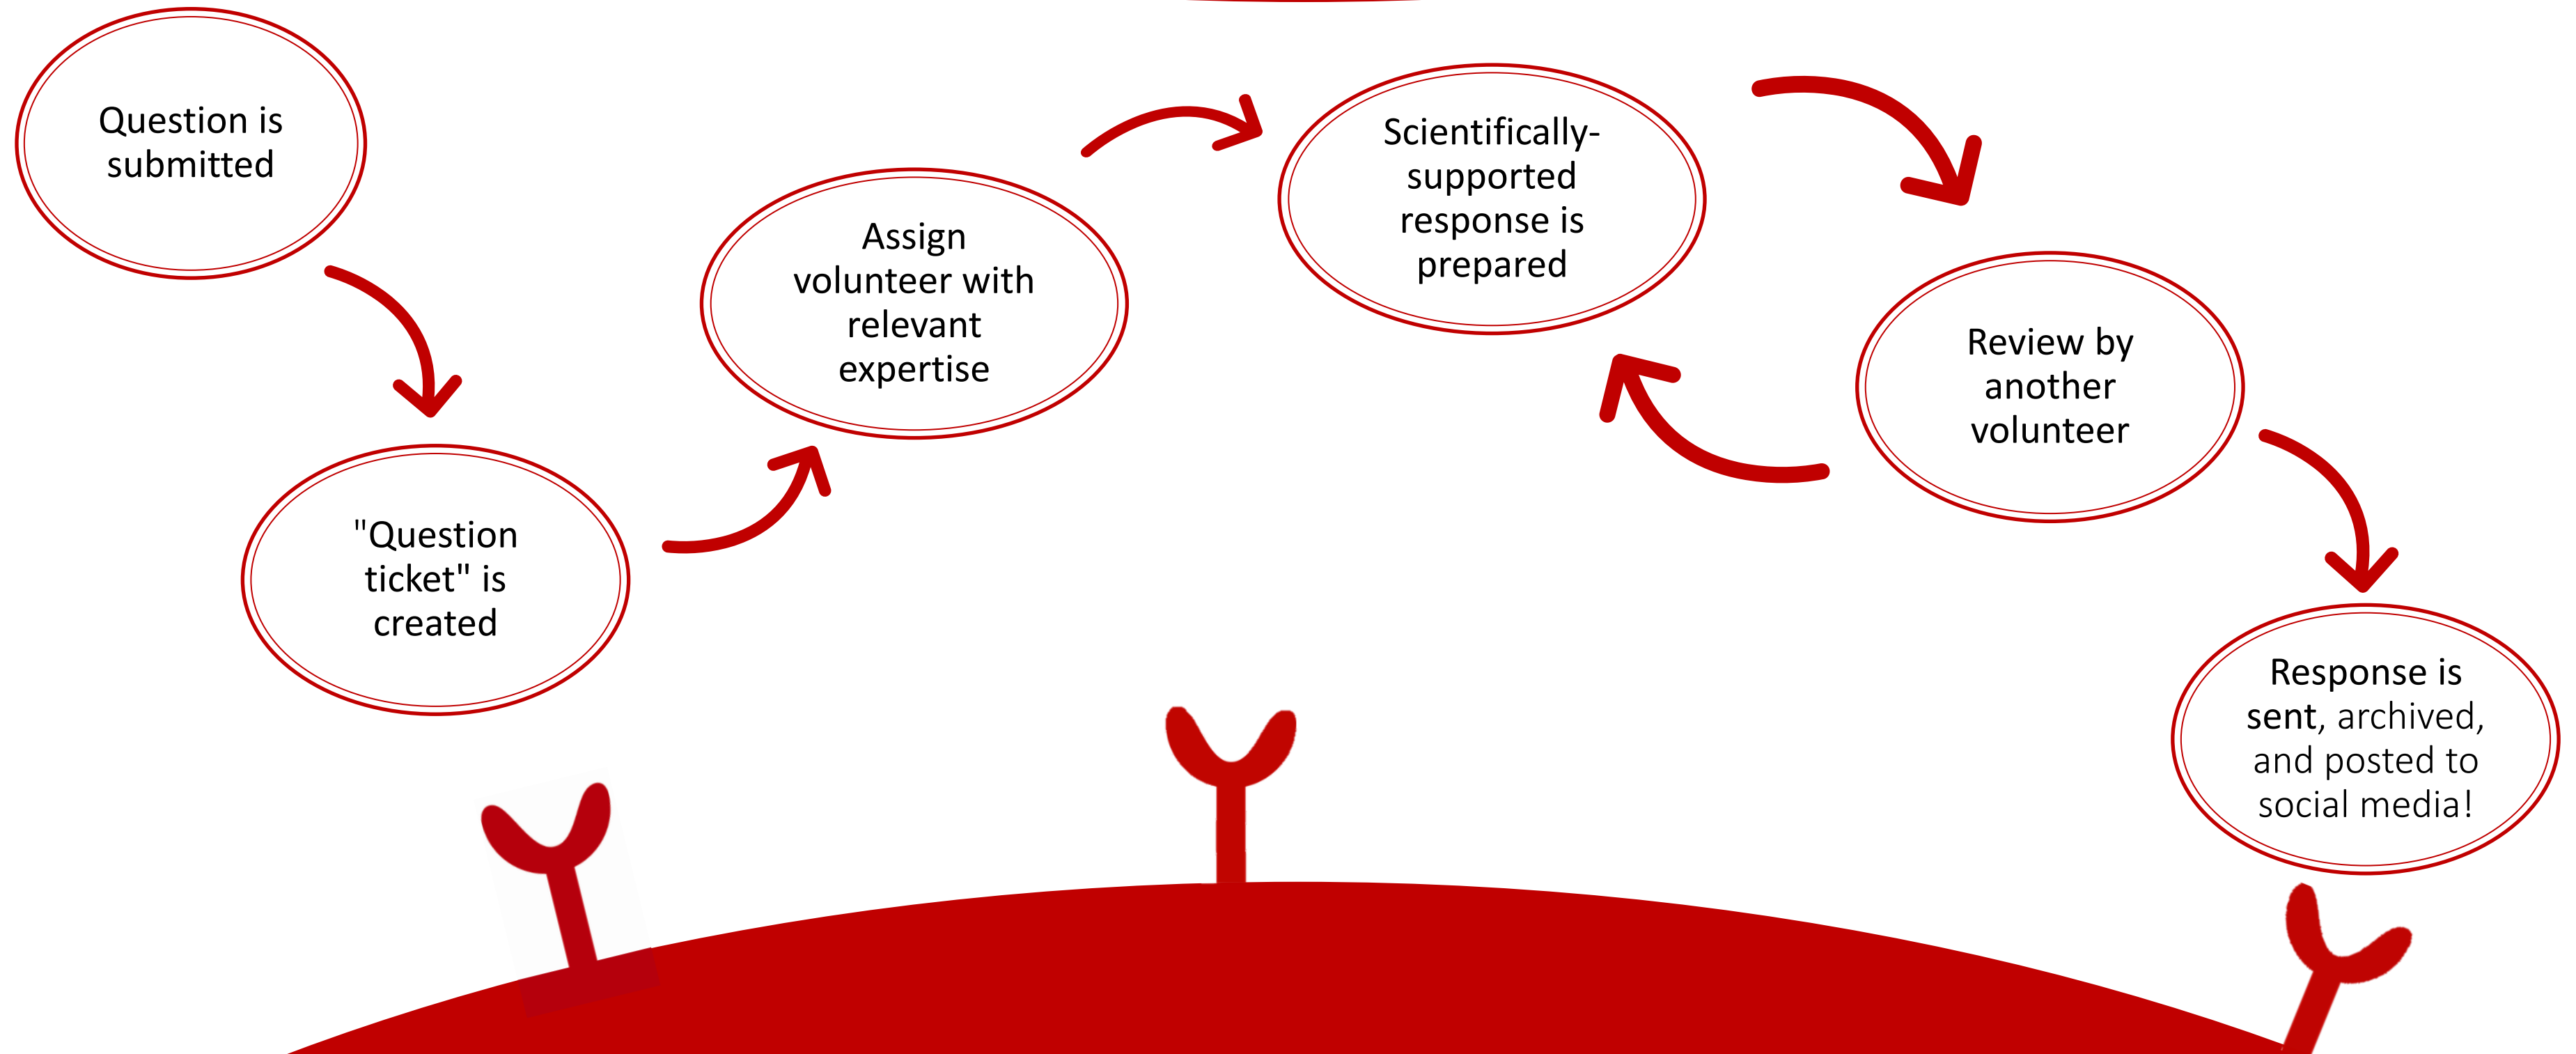

Excellent opportunity to improve science communication skills

Learn more about what the community needs from scientists

How does it work?

Writers

Research, write, and edit answers to community questions

Translators

Translate materials

Graphic designers

Design graphics to explain scientific concepts

Social media contributors

Contribute to our social media presence
(Currently hiring!)

Archivist

Build and maintain an ever-expanding library cataloging our questions and answers

Admin

Decision making, program design, support for volunteers, oversee workflow

Admin Team

Reza Farivar
(Faculty Advisor)

Hilary Sweatman

Rosanne Picotin

Lindsay Neuert

James Wang

Kira Feighan

Natasha Szulist

Yasmina Dumiaty

Zahra Kazemi
