in Neuroscience

FORM: M.Sc. THESIS PROPOSAL APPROVAL

OVERVIEW:

The IPN requires all M.Sc. students to do their thesis proposal within 20 months of admission into the program. Once you have drafted your thesis proposal, you must circulate it to your Advisory Committee to receive feedback on your draft. We strongly advise that you start circulating your draft a few months before the 20 month deadline as not to miss this milestone, which will be documented as a delay on your record in myProgress. Once the Advisory Committee unanimously confirms that your thesis proposal is satisfactory, you must submit the signed thesis proposal form to myProgress.

.....

The undersigned approve the following student's M.Sc. thesis proposal:

Student	Name	Last, First
	Supervisor	
	Name	Last, First
	Signature	
	Date	DD – MM - YYYY
