Prior to reviewing the FAQ section, please verify the Tentative Placement Contingency Plan for the 2020-21 academic year by clicking here. Note that future changes to this plan are possible.

1. **When will we know when to register for Fall 2020 and Winter 2021 placements?**
The ISA Office will notify students by their McGill email address when it is time to register. It is the student’s responsibility to monitor their inbox.

2. **I registered and completed the placement form for FE2 Spring 2020. Do I have to re-register and fill out a new placement form for FE2 in the Fall?**
Yes. Students will be notified when they should re-register and will receive a new placement form. Please drop FE2 immediately if you have not done so. The deadline to drop Spring 2020 FE2 is April 17 2020.

3. **I was supposed to take FE1 and FE2 this Spring, and then FE3 in Fall. Can I take them all together in Fall?**
No. There is not enough time in the Fall semester to complete all three placements. Please contact your placement coordinator and your academic advisor to discuss your study plan.

4. **If I am doing FE2 and FE3 back-to-back this Fall, will I be placed at the same school?**
Yes, this is ISA’s preference to accommodate the influx of placements we will be accommodating in the Fall, but please note that this depends on CT and host school availability.

5. **Will students that only need to do FE3 in Fall be following the same schedule (and start date) posted for FE3 as students doing FE2 and FE3 back to back?**
Yes, FE3 will begin after FE2 this Fall. Please click here to verify the dates.

6. **I plan to complete FE2 and FE3 back-to-back. By what date should I arrive in Montreal?**
FE2 Professional Seminar courses begin on August 24 2020. You are expected to be in Montreal a few days prior to August 24th to ensure a timely start.

7. **I am a PE student and was intending on doing FE3 this Fall. With FE3 PE postponed to Fall 2021 according to the new contingency plan, what can I take this Fall? If I have a few courses to complete, should I sign up for those courses this Fall instead of FE3?**
Please discuss this with your academic advisor.

8. **What will be the impact on FE4 in Winter 2021?**
We are hoping that there will not be an impact on FE4. However, placement availability depends entirely on host school availability. Should government mandated closures be further extended, then FE4 placements may be impacted. Rest assured that the ISA Office are trying to limit the repercussions of any potential impact.

9. **Will FE4 Winter 2021 still be available to be completed as a distance placement?**
At present, with the growing complexity of our placements situation, it is too early to plan for distant placements. More information regarding distant placements will be available in September.
10. How will MATL IN1 and IN2 be impacted for the 2020-2021 academic year?
    We are not presently anticipating changes to the IN1 nor IN2 schedule. IN1 and IN2 will
    continue as planned, though this is subject to change as details regarding school closures
    continue to evolve.
