BIORESOURCE ENGINEERING

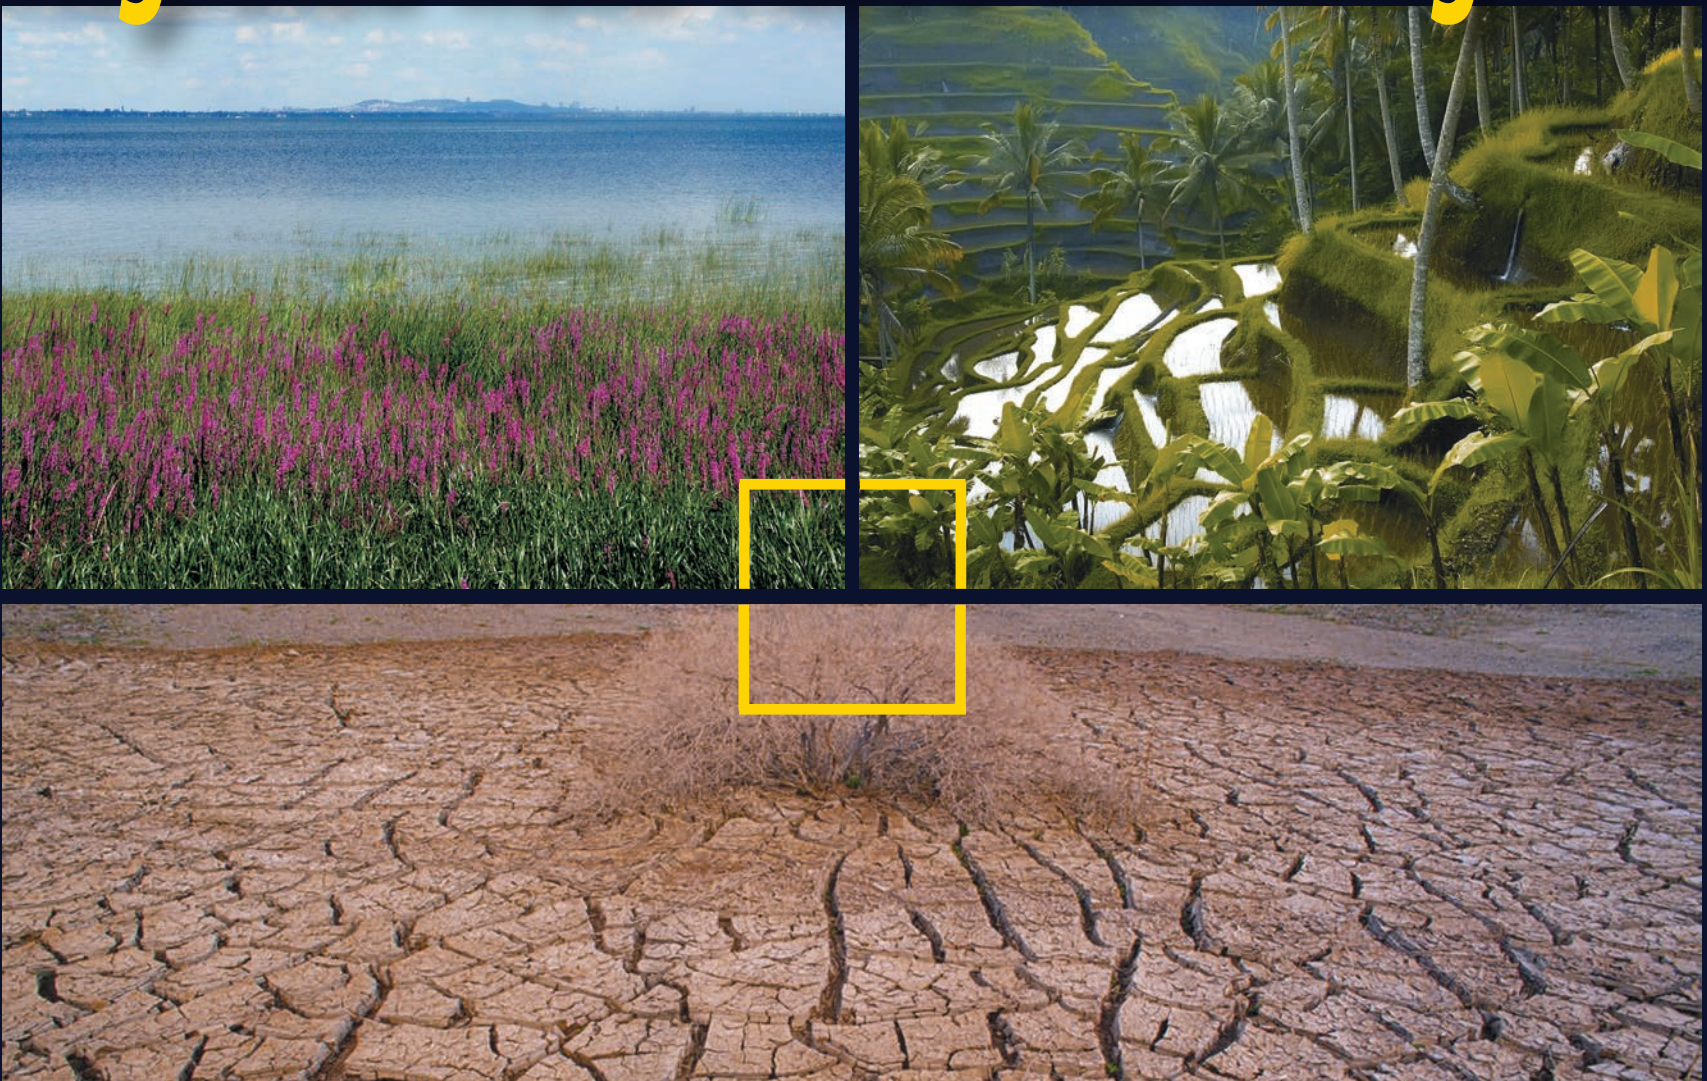

BRACE CENTRE FOR
WATER RESOURCES MANAGEMENT

1-YEAR MASTER OF SCIENCE (NON-THESIS)

OR

2-MONTH GRADUATE CERTIFICATE

Integrated Water Resources Management

The efficient and sustainable management of water is an urgent global issue.

Study the biophysical, legal, institutional and socio-economic aspects of water use and management in an integrated context.

INTERNSHIPS

A 3-month internship and project is a central feature of the Master's program.

Examples of recent internships include: UNESCO in New Delhi, International Joint Commission, Environment Canada, Watershed Organizations in Canada and the USA, World Agroforestry Centre in Nairobi, World Resources Institute in Washington, CIDA, engineering and environmental consulting firms, and the Zuckerberg Institute for Water Research in Israel.

PREREQUISITES

Candidates are required to have a Bachelor's degree but this does not need to be an engineering degree. Students with various backgrounds are encouraged to apply (e.g., geography, international development, sociology, anthropology, biology, environmental studies, engineering, natural resources management, etc.)
