Search History (0)

Too many search results? Add an additional concept. You can also specify that one or more of your concepts appear in the article title.

Enter one concept per search box. Separate your synonyms with OR. Too few search results? Adding more synonyms for your concepts will increase the number of your search results. You can also try removing one of your concepts.

You can decrease the number of your search results by using the limits on the left hand side of the page. You can limit by language, year, document type, controlled vocabulary terms, etc. Select your limit and then click on the "Limit to" button at the top of the page. Looking at the list of controlled vocabulary terms will give you a snapshot of all the aspects of your research topic being discussed in the list of search results.

- Wheeled mobility device transportation safety in fixed route and demand-responsive within the United States**  
 Frost, Karen L. (J.B. Speed School of Engineering, Mechanical Engineering Department, University of Louisville); Van Roosmalen, Linda; Bertocci, Gina; Cross, Douglas J. Source: Assistive Technology, Database: Compendex
