

Importing E00 files into ArcView 8.x

Related Guides:

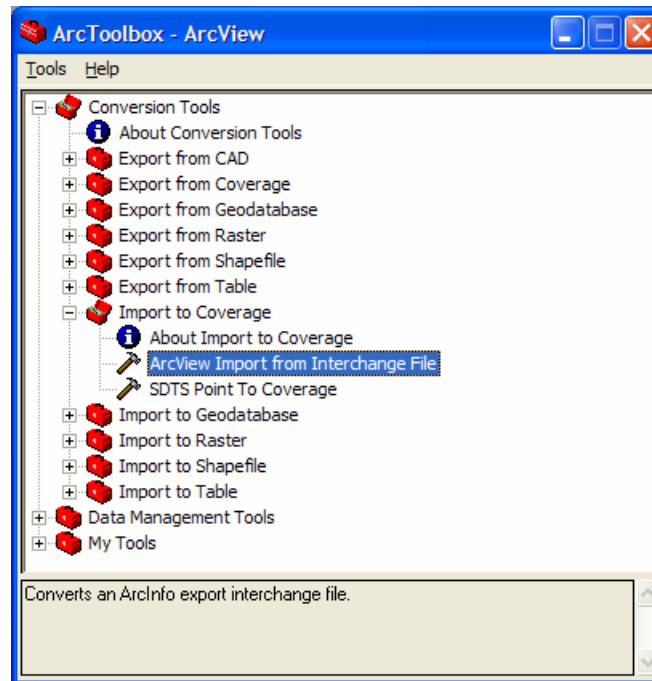

- [Importing E00 files into ArcView 3.x](#)
- [Importing E00 files into ArcGIS 9.x](#)

Requirements:

- ArcGIS 8.x
- E00 file

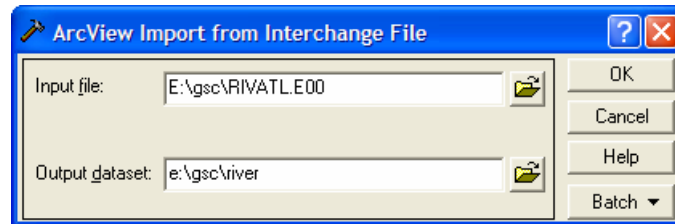

Procedure:

1. Open ArcToolbox (from Start/Programs/ArcGIS/ArcToolbox)
2. Press the plus sign next to Conversion Tools to expand the options.
3. Do the same to Import to Coverage
4. Double Click on ArcView Import from Interchange File

5. In the dialogue box under Input File browse to the location of the E00 file

6. In the dialogue box under Output Dataset enter the location you want to save your data. Do not put an extension on the filename

7. Click Ok

NOTE: Neither the original file name, nor the output data source can contain spaces in the path
