

Importing E00 files into ArcView 9.x

Related Guides:

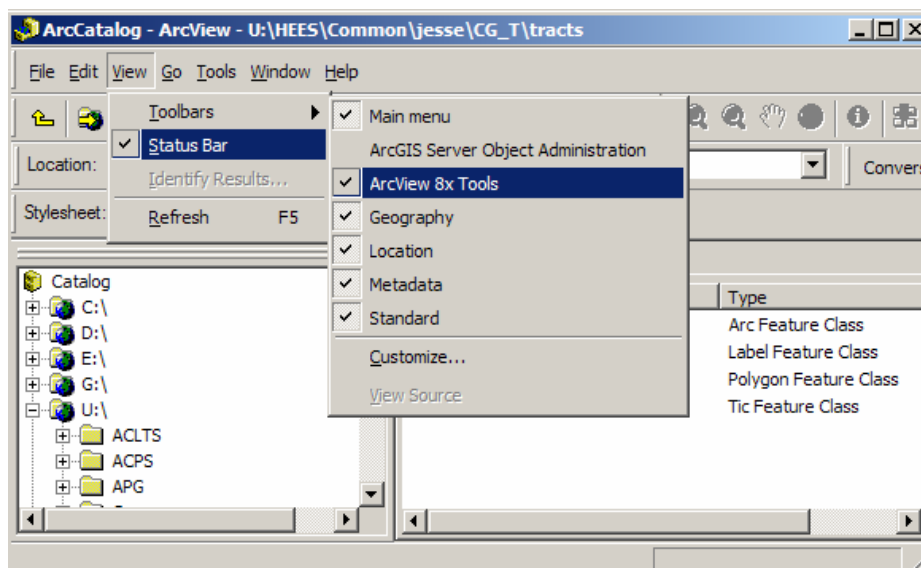

- [Importing E00 files into ArcView 3.x](#)
- [Importing E00 files into ArcGIS 8.x](#)

Requirements:

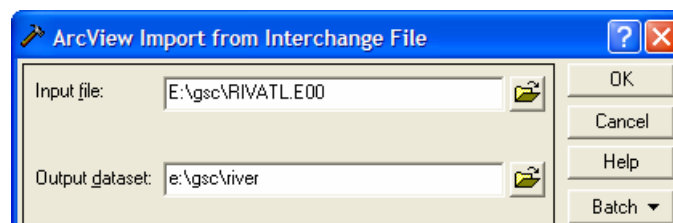

- ArcGIS 9.x
- E00 file

Procedure:

1. Open ArcCatalog (from Start/Programs/ArcGIS/ArcCatalog)
2. Under the View menu select toolbars and then check Arcview 8x tools

3. Press the Conversion Tools button that just appeared
4. From the drop down menu select Import from Interchange File
5. In the dialogue box under Input File browse to the location of the E00 file
6. In the dialogue box under Output Dataset enter the location you want to save your data.
Do not put an extension on the filename

7. Click Ok
8. If you want to convert multiple E00 files, click Batch then repeat steps five and six for each file you wish to convert. Click Okay when you have entered all the files

NOTE: Neither the original file name, nor the output data source can contain spaces in the path
