

Faculty of Agricultural and environmental Sciences
Scholarships Committee Report
April 13, 2018

Motion to FAES Council:

Background :

CENTRE D'INSÉMINATION ARTIFICIELLE DU QUÉBEC (CIAQ) INC. AWARD

Awarded each year to a student with high achievement in the Principles of Animal Breeding course who has shown a particular interest in the genetic improvement of domestic animals. In selecting the winner, consideration will be given to high overall standing and performance in the prerequisite course. Awarded by the Faculty of Agricultural and Environmental Sciences Scholarships Committee on the recommendation of the Department of Animal Science.

Award Value: \$1,000

This award has been direct-funded by the CIAQ. The CIAQ has changed the mechanism by which they wish to distribute their funding to a manner that is inconsistent with the Faculty awards process.

Therefore the Faculty will no longer make the award. The Faculty has agreed to assist in identifying candidates for an awards process run by the CIAQ.

Motion to Faculty:

The CENTRE D'INSÉMINATION ARTIFICIELLE DU QUÉBEC (CIAQ) INC. AWARD will no longer be offered, and will be removed from the Undergraduate Scholarships and Awards Calendar.

Respectfully submitted,

Jim Fyles
Associate Dean (Student Affairs)
Chair, Scholarships Committee
