

Faculty Lecturer – Dietetics Educator (RD-PhD)

Ranked Contract Academic Staff (CAS) Position

Faculty: Faculty of Agricultural and Environmental Sciences

Department/School: Human Nutrition

Position description

The School of Human Nutrition of the Faculty of Agricultural and Environmental Sciences is seeking applications for a full-time position (3-year term) at the rank of Faculty Lecturer. The successful candidate will serve as a Dietetics Educator and will teach undergraduate and/or graduate required courses offered by the School. The candidate will be joining an established team of Dietetics Educators (Professional Practice (Stage)).

Job duties

Primary responsibilities will include overseeing the MSc applied (project) program in Nutrition, establishing new collaborations for clinical research projects and coordinating master applied projects, liaison with Stage preceptors, teaching responsibilities, and supervision of Stage rotations at placement sites. The successful candidate will contribute to services within the School such as participating in curriculum revision, simulation activities and student advising.

Qualifications and education requirements

The successful candidate will have a PhD in nutrition or related area and be a registered dietitian (R.D. or P.Dt.) with membership in, or eligibility for membership, in l'Ordre des diététistes nutritionnistes du Québec (ODNQ). Experience in clinical dietetics practice, in teaching and student supervision, as well as excellent French and English skills are required. In-depth knowledge of the Quebec healthcare milieu or public health system is an asset. Preference will be given for candidates with relevant experience in a multidisciplinary clinical environment. Candidates must be committed to and demonstrate excellence in both the teaching and learning of students, contribute to a student-centered environment that nurtures and challenges students, and show commitment to equity and diversity in their teaching practice.

McGill University is one of Canada's oldest and most prestigious institutions of higher learning with 40,000 students, and 1,700 tenure-track professors. The Faculty of Agricultural and Environmental Sciences (www.mcgill.ca/macdonald) is located on McGill University's Macdonald Campus, which occupies 650 hectares in a beautiful waterfront setting on the western tip of the island of Montreal.

The School of Human Nutrition (www.mcgill.ca/nutrition) offers 3 dietetics programs: the 115-credit BSc (NutrSc) Dietetics Major (40 weeks of Stage), the 83-credit MSc Applied in Human Nutrition, Dietetics

Credentialing option (34 weeks of Stage plus a 6-credit project), and the 30-credit (34 weeks of Stage) Graduate Diploma in Dietetics Credentialing (offered ad hoc to students with a PhD in Human Nutrition and all the coursework completed).

The Dietetics Major is recognized by l'Ordre des diététistes nutritionnistes du Québec to meet the academic and internship requirements to be a registered dietitian/nutritionist in Quebec. Stage placements are integrated with academic courses throughout the program.

The School of Human Nutrition is also a research-intensive unit with ongoing activities in our on-site research facilities, including the newly renovated Clinical Nutrition Research Unit, as well as the Centre for Indigenous Peoples' Nutrition and Environment, and the Margaret A. Gilliam Institute for Global Food Security. Other McGill-affiliated research and health centres (www.mcgill.ca/research/about/partners) include McGill University Health Centre teaching hospitals and McGill University Genome Quebec Innovation Centre.

McGill faculty members are expected to contribute to service activities within their units, the University, and the wider scholarly community. McGill is firmly committed to equity, diversity and inclusiveness (EDI).

COMMITMENT TO EQUITY AND DIVERSITY

McGill University is committed to equity and diversity within its community and values academic rigour and excellence. We welcome and encourage applications from racialized persons/visible minorities, women, Indigenous persons, persons with disabilities, ethnic minorities, and persons of minority sexual orientations and gender identities, as well as from all qualified candidates with the skills and knowledge to engage productively with diverse communities.

At McGill, research that reflects diverse intellectual traditions, methodologies, and modes of dissemination and translation is valued and encouraged. Candidates are invited to demonstrate their research impact both within and across academic disciplines and in other sectors, such as government, communities, or industry.

McGill further recognizes and fairly considers the impact of leaves (e.g., family care or health-related) that may contribute to career interruptions or slowdowns. Candidates are encouraged to signal any leave that affected productivity, or that may have had an effect on their career path. This information will be considered to ensure the equitable assessment of the candidate's record.

McGill implements an employment equity program and encourages members of designated equity groups to self-identify. It further seeks to ensure the equitable treatment and full inclusion of persons with disabilities by striving for the implementation of universal design principles transversally, across all facets of the University community, and through accommodation policies and procedures. Persons with disabilities who anticipate needing accommodations for any part of the application process may contact, in confidence, this email or phone at 514-398-2477.

All qualified applicants are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadians and permanent residents will be given priority.
