It is strongly recommended that you choose a minimum of **eight (8) courses per semester, per host** - this is to allow for future timetable changes and conflicts. If you're struggling to find 8 courses that fit your program at a specific host university, that's probably a sign that this host is not a good fit for your program.

PRO TIP: Research your courses beforehand and save in a WORD document so when you're completing your exchange application you can simply copy and paste your text, and you won't be timed out of the application!
