TAKAHISA YOHIMURA
Home University: Waseda University, Japan

UM provided me a platform to interact with top-notch lecturers, students from all over the world and most importantly, a second home; a place where I never missed my family. I was left awestruck the moment I realised how each Malaysian tends to help me in the best possible way while offering affection and hospitality.

TAKAHISA YOHIMURA
Home University: Waseda University, Japan

My six months at UM was a truly eye opening experience that gave me a breadth of insights into Malaysia’s diverse cultures and vibrant history. The exchange programme at UM provided ample opportunity to really get into the thick of it with formalised cultural activities.
