

## Travel Awards of the first-round application

We are pleased to announce that five trainees, **Stéphane Isnard, Angeliki Karellis, Cindy Leung Soo, Shuo Sun, and Haoyu Wu**, have received the Travel Awards supporting their attendance of conferences and presentation of their research data. These awards are sponsored by the McGill Centre for Viral Diseases (MCVD) and the McGill Interdisciplinary Initiative in Infection and Immunity (MI4). Congratulations on their successful submissions!

**Isnard, Stéphane:** present on “GDF15 influences HIV persistence in CD4 T-cells of ART-treated people living with HIV”, at the HIV persistence during therapy meeting (2022/12/13), from Jean-Pierre Routy lab,

**Karellis, Angeliki:** present on “1: Evaluation of a Rapid Multiplex Assay Based Digital Screening Strategy in Canada: What’s the Verdict? 2: Do digital innovations improve sexual and reproductive health among youth? Results from a systematic review”, at the 24<sup>th</sup> International AIDS Conference (2022/07/27), from Nitika Pant Pai lab.

**Leung Soo, Cindy:** present on “Contextual Factors Impact the Risk of HIV Infection in South African Townships: A Bayesian Analysis of Secondary Trial Data”, at the 31<sup>st</sup> Annual Canadian Conference on HIV/AIDS Research (2022/04/27), from Nitika Pant Pai lab

**Sun, Shuo:** present on “Principal stratification for quantile causal effects under partial compliance: an analysis of COVID-19 case counts” at the Joint Statistical Meetings (2022/08/05), from Erica Moodie and Johanna Nešlehová labs

**Wu, Haoyu:** present on “Estimating COVID-19 incidence using deaths, cases, tests, surveys, and vaccinations”, at the Statistical Society of Canada 2022 Annual Meeting (2022/05/30), from Erica Moodie lab.

Deadline for the next round of Travel Awards application is **September 30, 2022.**
