

Immigration Supplement – FALL 2024 ADMISSION

This document is a supplement to the letter of offer for a student position in Faculty of Medicine of McGill University for immigration purposes. A copy of this document can be found at www.mcgill.ca/medadmissions/newstudents/registration-orientation/international-students

International students (students requiring a study permit to study in Canada) must obtain a *Certificat d'acceptation du Québec* (CAQ) from *Immigration Québec* and a Study Permit from Citizenship and Immigration Canada. **When applying for your Student Permit with Canada, you will also need to apply for a “co-op work permit” as the M.D.,C.M. program has required clinical rotations not comprising more than 50% of the program credits. All students must complete these clinical courses in order to obtain the M.D.,C.M. degree.** Detailed immigration procedures are provided on the International Students Services website at www.mcgill.ca/internationalstudents/. Immigration officials require a copy of the admission letter along with a copy of this supplement to provide an estimate of the cost and duration of the studies.

Note that a medical exam from a CIC certified physician is required for healthcare students. See <https://www.canada.ca/en/immigration-refugees-citizenship/services/application/medical-police/medical-exams/requirements-temporary-residents.html>
