

MEDICINE: INTL MEDICAL GRADUATE, 4 YEARS

Overview

The IMG 4-year admissions pathway is open to all IMGs, regardless of whether they are residents of Quebec, Canada, or International students. Admitted candidates will complete all 4 years of the undergraduate medical education program, with no advanced standing. Note that many applicants who are Quebec residents choose to apply to both IMG-2 and IMG-4 streams. The number of seats potentially available to IMG-4 candidates is based on the general residency categories.

Please note that admission is highly competitive; IMG-4 candidates are assessed with all university degree-holding applicants in their residency category, not just other IMGs.

Admission Requirements and Conditions

To be eligible, applicants must hold a medical degree from an accredited medical school recognized by the World Health Organization.

IMG-4 applicants who also hold a non-medical bachelor's degree must submit transcripts and documentation for this degree. The file will be reviewed in its entirety and the selection process will be determined based on the most advantageous option for the candidate.

The selection process is analogous to that for candidates applying to the MDCM program with a Bachelor's degree. Academic assessment will be as follows: 63% MCCQE Part 1 score, 7% pre-clinical and clinical assessment from transcripts, medical school performance report and other supporting documents. The CV will be worth 10%, and the CASPer score worth 20%. Selected applicants will be invited to an interview.

The interview score will be worth 100% for the offer of admission.

French Language Proficiency

French-language proficiency is a pre-admission requirement for students starting the MDCM Program or Med-P qualifying year. The French-language minimum requirements are a **B2** (mid-intermediate) level for the Montreal Campus.

Requirement exemptions:

- Candidates who have completed **both** high school and CEGEP in **Quebec** (in English or French) will not be required to submit tests or certificates for proof of French-language proficiency. An unofficial copy of proof of high school (transcript or diploma) must be uploaded. The CEGEP transcript is received directly from the Ministry of Education.
- Candidates who have completed **at least 1 year** of secondary or post-secondary study at an institution whose **official** language of instruction is **French**.
- Candidates who wrote **CASPer** (score used for admission to medicine) in French.

Special Note

- IMG applicants are **not eligible to apply to the joint MDCM-PhD program. Only residents of Quebec who are applying to the IMG 4 year pathway can be assigned to the Outaouais Campus.**

Key Dates

The following dates are subject to change without notice.

- Application deadline: **November 1, 2023**
- Deadline for the receipt of supporting documents: **November 1, 2023**
- Target date for sending preliminary selections: **January 25, 2024**
- Interview dates: **February 20-23, 2024**
- Start of program: **End of August 2024**

SELECTION PROCESS

A: Preliminary assessment: Getting to the interview

www.mcgill.ca/medadmissions/applying/selection-process

Step 1 ► Prescreening of academic and non-academic criteria

Based on the academic evaluation or CASPer test approximately 4 to 6 times the number of candidates are moved forward to the CV review; for example, if we intend to interview 50 people in a particular applicant category, the CVs of the top 200-300 files in that cohort are evaluated.

French-language proficiency of **B2 (mid-intermediate)** level for Montreal Campus and **C1 (advanced)** level for Campus Outaouais. (See first page for exemptions)

The non-academic criteria are assessed through the online CASPer test (20%) and the CV supporting document (CVMD) (10%).

Step 2 ► Determining the interview invitation list

In order to determine which candidates will be invited to interviews, results of academic and supplemental document evaluation are weighted as follows:

About the Multiple Mini-Interviews

Selected candidates will be invited by the Faculty of Medicine and Health Sciences for an interview session. Attendance is by invitation only sent by the date published according to the applicant category. Candidates

cannot be admitted without an interview. Interviews are an important tool for Admissions to evaluate the non-academic strength of applicants.

B: Final assessment: Getting an offer

For applicants to the MDCM (and combined MDCM & PhD program)

BEGIN your application process: <https://future.mcgill.ca/apply/>

1. Complete application forms and pay the application fee.
2. Submit supporting documents

Submit supporting documents

Submit your supporting documents online. Provide your complete academic history. Include all Universities, CEGEPS, degree-granting colleges and/or University-level schools you attended. You must upload unofficial copies of your transcripts from each post-secondary institution you have attended, as well as other documents stipulated based on your applicant category in the Applicant Portal. A list of the required documents will be accessible on the online application system.

See www.mcgill.ca/medadmissions/applying/elements for the full list of documents accepted. Note that the academic workbook (Excel spreadsheet) is submitted via email.

Test Scores

If you are required to submit test scores, please ensure that you have released them to McGill through the testing company, for example CASPer.

All applicants to the Faculty of Medicine and Health Sciences MDCM programs are **required to complete the Canadian Professional Health Sciences CASPer test prior to the application deadline**. Completion of CASPer is mandatory in order to maintain admission eligibility. Applicants must register themselves on <https://acuityinsights.app/>, have their identification validated, and reserve a test time that matches their choice of program(s) and application cycle.

For more information, visit: www.mcgill.ca/medadmissions/applying/elements/casper

Basic Science Prerequisites for the MDCM Program

Since the 2021 application cycle, Basic Science prerequisite course grades must meet the minimum for eligibility for transfer credit/advanced standing or exemption status for McGill University. Pass, Satisfactory, Credit, etc. grades will be accepted for Winter 2020 courses only.

If taken during the undergraduate degree, Basic Science prerequisite course grades will contribute to the degree GPA calculation, however a separate GPA for the science courses (collegial and/or university level) will not be weighted in the selection process. The final step of selection for the MDCM program will be based on the interview, harmonizing it with the selection process for the Med-P qualifying year.

Winter 2020 Accommodations for MDCM Candidates

1. Winter 2020 grades will not be considered in the academic evaluation (GPA).
2. Winter 2020 credits for all successfully completed courses will be counted towards degree totals as reported on the institution's transcript.
3. Winter 2020 semester credits will not be considered when assessing eligibility related to fulltime studies.
4. Winter 2020 Basic Science prerequisite course grades of Pass, Satisfactory, Credit, etc. will be accepted.
