# Strengths & successes

- Shared vision across the Faculty leadership
- Progress towards better communication leading to more consistent responses to problems
- Implementation of improved faculty orientation and mentorship (ongoing)
- Excellent support from the central University (Associate Provost, Legal Counsel) for difficult cases

# Persistent challenges

- Communication across the many actors involved
- Reactive (e.g. disciplinary) response is inherently slow, stressful, and opaque to the community
- Very imperfect data make it challenging to monitor progress
- Under-developed “proactive” strategies
  - Early detection and intervention
  - Prevention
- The learning environment is our work environment
  - many variables outside the scope of the Faculty...
