### PRIMARY DUTIES
- Conduct literature reviews of legal, ethical and policy aspects in the field of genomics with a focus on emerging technologies and privacy law;
- Analyze and compare provincial, national, and international legal documents on the above-mentioned topics;
- Assist in the development and drafting of policy for relevant stakeholders (public, professionals, health institutions, researchers, research ethics boards, etc.);
- Assist in the researching, drafting, copy-editing and source-checking of submissions to peer reviewed law, bioethics and scientific journals;
- Attending project meetings;
- Supporting teaching activities, when appropriate;
- Collaborating with the team at the Centre of Genomics and Policy;
- Performing any other activity assigned by the research supervisor;

### EDUCATION/EXPERIENCE
- At a minimum: pursuing their 3rd year of a law degree with a competitive GPA;
- Demonstrated interest in health care law and policy, emerging technologies and/or privacy law;
- Familiarity with comparative law methodologies;
- Experience with copy editing, reference formatting, and legal source checking is an asset;
- Background in biology, informatics fields, and/or bioethics is an asset

### OTHER QUALIFYING SKILLS & ABILITIES
- Fluent in English and working knowledge of French
