

BALL THROMBUS.

HEART.

27

Presented by Dr. Wyatt Johnson. E.768

Round ball thrombus in left auricle in mitral stenosis, embolism of abdominal aorta and thrombosis of left external iliac.

The thrombus the size of a golf ball lies free across the mitral orifices. Note jagged end of old thrombus in appendix.

Female, age 44 years. History of rheumatism and repeated failing compensation. Gangrene of left leg from embolism of right iliac artery.

REF: MGH. 18/90 - SURG. Case Book F. XV. P. 111.
