Hydatiform Degeneration of Chorion
Hyperplastic lymph nodes of small bowel in Lymphatic Leukemia
Skin in confluent Smallpox
Saccula Artery of Carnous Viscia Artery.
Anthracosis in lung of coal-miner's dog.
Atherosoma of Iliac Arteries
Amerymn of Mithal Value
Thrombosis of branches of pulmonary artery.
Chronic Infective (septic) Endocarditis of Aortic Valve, with Fusion of Anterior & Posterior Cusps, perforation of the combined segments, Calcification of the Inflammatory Products.
Hydatiform Degeneration of the Chorion
Myeloid Sarcoma of the Humerus
Large Epitheliomatous Ulcer of Palms of Hand.
Lung Anthracositis with fibroid induration

36 hen M.

Dr. Osler
Dilatation of biliary system in obstruction of Common duct

Dr Osler
The base of the aorta with a portion of the left auricle, the aortic and the anterior segment of the mitral valves. The aortic cusps are much thickened and the coronary segments are fused with each other. Acute Infective Endocarditis of the Aortic valves and mural Endocarditis. Formation of large vegetations and extensive ulceration.
Secondary carcinomas of R.B. A fatty heart, the right ventricle of which is greatly narrowed by a fungating growth, resembling blood clot which is attached to its anterior wall, and infiltrating the sub-cardiacum from the apex to the infarct segment of the truncus pulmonalis, etc.
Small bowel from a case of Leukaemia

There are numerous hyperplastic lymph follicles scattered throughout mucosa.
Sarcoma of ileum.
Total circumference of all coats of intestines well infiltrated with mass of growth about 2 cm thick and 4 cm long.

Donor: Dr. Osler
