

Reference #: C-190502

Assistant/Associate Professor (Clinical)

Faculty of Medicine – Department of Neurology and Neurosurgery

Position description

The Department of Neurology and Neurosurgery is inviting applications for a full-time position as a member of the Contract Academic Staff at the rank of Assistant/Associate Professor (Clinical). The professorial rank will be according to the candidate's qualifications and experience. This will be a three-year, renewable appointment.

The successful applicant will play an active role in expanding the multiple sclerosis (MS) clinical-research interface. In doing so, the successful applicant will be involved in organizing and managing samples collected from specific MS patient subtypes and will play a role in linking the MS program with other basic research activities in the department.

The Department of Neurology and Neurosurgery is affiliated with McGill, Canada's most international university, which is located in vibrant, multicultural Montreal, in the francophone province of Quebec. The neuroscience community at McGill and in greater Montreal is one of the largest and most diverse in North America.

The candidate will be appointed to clinical practice at the Montreal Neurological Hospital, within the McGill University Health Centre.

The McGill University Health Centre includes major McGill University-affiliated teaching hospitals at several sites in downtown Montreal. Neurologists and neurologist-scientists provide tertiary in-patient and out-patient neurological care, engage in a wide range of clinical and basic neuroscience research, and lead strong clinical neuroscience teaching programs in undergraduate and postgraduate medicine at the Montreal Neurological Hospital and Institute, Montreal General Hospital, and McGill University.

This provides a unique environment for studying fundamental and applied neuroscience. Out-patient activities will be based at the Montreal Neurological Hospital, Multiple Sclerosis Clinic. This tertiary referral clinic follows 4000 patients and is a key element in a world-leading translational research program.

The Montreal Neurological Institute has embarked on a journey to set a global precedent as the first academic institute to fully embrace the principles of Open Science. In that context, the Institute highly encourages its researchers to work under these principles.

Job Duties

The successful applicant will be expected to be actively involved in all aspects of McGill's academic mission (teaching, supervision of graduate students, and involvement in academic and administrative committees), provide excellent clinical teaching and supervision to residents and medical students, and to pursue scholarly activities in advancing clinical care or clinical research in the area of multiple sclerosis.

Qualifications and Education requirements

Requirements:

Applicant will have advanced training and the demonstrated capacity to excel in academic neurology, including specialized clinical expertise, strong medical education skills, and well-defined clinical or basic research interests in the area of multiple sclerosis. Clinician innovators who are developing novel clinical approaches or methods are also encouraged to apply.

Applicant must hold or be eligible for licensure as a neurologist in the province of Quebec. Clinician scientists with MD/PhD or equivalent research-intensive training are strongly encouraged to apply. A good working knowledge of French or a commitment to become fluent in French is necessary.

JOB DETAILS

<i>Job Type:</i>	Contract Academic Staff (Clinical)
<i>Rank:</i>	Assistant/Associate Professor
<i>Job status:</i>	Full-time
<i>Salary:</i>	Remuneration will be according to Quebec health care fee schedule
<i>Posting period:</i>	30 days from date of posting

APPLICATION PROCESS

Applications must be submitted on-line at: <http://www.mcgill.ca/medicine-academic/positionsavailable>

The following supporting documents are required:

- a cover letter & curriculum vitae (as 1 pdf document)
- statement of research (if including other documents, combine to make 1 pdf)
- the names and contact information of three referees

McGill University hires on the basis of merit and is strongly committed to equity and diversity within its community. We welcome and encourage applications from racialized persons/visible minorities, women, Indigenous persons, persons with disabilities, ethnic minorities, and persons of minority sexual orientations and gender identities, as well as from all qualified candidates with the skills and knowledge to productively engage with diverse communities.

McGill further recognizes and fairly considers the impact of leaves (e.g., family care or health-related) that may contribute to career interruptions or slowdowns. Candidates are encouraged to signal any leave that affected productivity, may have had an effect on their career path. This information will be considered to ensure the equitable assessment of the candidate's record.

McGill implements an employment equity program and encourages members of designated equity groups to self-identify. It further seeks to ensure the equitable treatment and full inclusion of persons with disabilities by striving for the implementation of universal design principles transversally, across all facets of the University community, and through accommodation policies and procedures. Persons with disabilities who anticipate needing accommodations for any part of the application process may contact, in confidence, Professor Angela Campbell, Associate Provost (Equity and Academic Policies) by email or phone at 514-398-1660.

All qualified applicants are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadians and permanent residents will be given priority.
