PowerPoint Slides - Copyright Criteria:

We strongly encourage the following:

- Use your own material. Avoid copying images, videos, tables, cartoons, and graphs from copyright publications. If you do need to do so, it is best to redraw graphs and tables and fully reference the source on the slides
- No patients' images permitted, unless you have written consent and/or the patient can not be identified. Also there should be no names, hospital numbers or other patient IDs on your content
- If you use material from other sources, please reference the slide(s) fully: (e.g. a table/graph from a journal article)
