

McGill Institute for Advanced Materials – Map and Directions

- **MIAM office:**

Enter the Frank Dawson Adams building from University Street. Go up the stairs. Turn right. The office, FDA Room 6C, will be down the corridor on your left.

- **McGill Nanotools Microfab:**

The offices and the microfab lab are located in the 1st basement of the Rutherford Physics building. In the lobby of the building, take the elevator to B1 floor or use the stairs to go down one floor.
